DESIGN REDEFINED

為設計重新定義

The year 2019-2020 was marked by unprecedented change for Hong Kong Design Centre (HKDC): our office was relocated to The Mills, a cultural and creative hub in Tsuen Wan, and our first public-facing initiative, "Design Spectrum" was inaugurated in Wan Chai. In early 2020, in response to the emerging global impact of the COVID-19 pandemic, we started adapting the format of our initiatives to forge on with our mission. In a world full of change and uncertainty, how can we continue to move forward and embrace the future?

HKDC's Chairman Prof. Eric Yim and Executive Director Dr Edmund Lee believe that we need to redefine design as a people-oriented approach to solving problems, and harness the essence of design thinking to weather the unpredictable challenges ahead. It is important to cultivate an innovative mindset in order to navigate the 'new normal' and see change as an opportunity.

毫無疑問，香港設計中心在2019-2020年度迎來了前所未有的轉變：我們搬遷至位於荃灣文創基地南豐紗廠的全新辦公室，又在灣仔社區設立了首個面向公眾的平台「設計光譜」。至2020年初，全球面臨新冠肺炎疫情的衝擊，我們也因此改變了日後推廣設計和舉辦活動的方式。當世界充斥著各種不確定性，我們應該如何在變化莫測的未來繼續前行？

香港設計中心主席嚴志明教授(Eric)及行政總裁利德裕博士(Edmund)就認為，我們必須將設計重新定義為以人為本的解難良方，並掌握設計思維的精髓，以迎接各式各樣的轉變和挑戰。在接下來的「新常態」當中，我們要進一步運用設計和創意解決問題，尋求創新機遇。

ERIC · Prof. Eric Yim, Chairman of HKDC

EDMUND · Dr Edmund Lee, Executive Director of HKDC

Q1 · How would you summarise the work and developments of HKDC in the year 2019-20 in a few words?

ERIC · I would say it was a year of "design redefined". Firstly, HKDC bid farewell to its 14-year work base and moved into The Mills in Tsuen Wan in May 2019. Incorporating design thinking into creating an open-plan office, our new work space encourages more communication, collaboration and creative thinking among colleagues, redefining our work culture through placemaking.

Secondly, in response to the rapidly changing circumstances under the pandemic, we had to rethink the way we deliver what used to be physical events. Observing social distancing protocols, we added more digital components to our events and experimented with brand-new ways to connect with various stakeholder groups, so that we could continue our efforts to promote the value of design to different community sectors and the public at large.

EDMUND · True, and it's time that we ask everyone to revisit the definition of 'designer' too. I remember when the instructor asked who was working as a designer in one of our "Unleash! Empowered by Design Thinking" (Unleash!) workshops earlier, only three out of ten participants raised their hands. But when he rephrased the question to, "Who is responsible for project planning in your organisation?", seven people put their hands up!

Many people misinterpret design as being about aesthetics. In the broader sense of the word 'design', a lot of people are 'designers' as roles like talent recruitment, day-to-day operations and even logistics involve 'design' in the form of planning and process arrangements. HKDC hopes to cultivate a design culture by educating the public that design is an integral part of our lives, and that we are in fact all 'designers'. We need to cultivate a deeper understanding of design and design thinking if we are to drive the development and co-create a new future for Hong Kong.

Q2 · Can you share your most memorable moments in the year 2019-20?

ERIC · We are living in the age of 'TUNA', where we need to accept and embrace 'Turbulent', 'Uncertain', 'Novel' and 'Ambiguous' situations. In these times, we must foster our creative thinking and be able to come up with innovative solutions when facing different conditions.

My most memorable moment this year would have to be the cancellation of our annual flagship Business of Design Week (BODW) Summit in 2019 for the first time in its history. This prompted us to further apply design thinking and explore new approaches to organising forthcoming events, so that we could continue engaging industry professionals as well as the public.

"我們必須運用創意思維，以共同構思解決方案，應對各式各樣的狀況。 We must foster our creative thinking and be able to come up with innovative solutions when facing different conditions."

EDMUND · As Eric pointed out, while the situation that led to the event's cancellation was not something that could be helped, it also opened new opportunities for us to promote the unique value of design thinking. Facing a highly complex and fast-changing environment, people of all trades and industries need to rethink how to keep their business going in today's new reality. Design thinking, with its potential for developing creative solutions to problems, is precisely what we need to overcome the challenges confronting us now.

"我們希望讓社會各界知道設計是生活一部分和「人人有份」。 Design is an integral part of our lives, and we are in fact all designers."

ERIC · 香港設計中心主席嚴志明教授

EDMUND · 香港設計中心行政總裁利德裕博士

Q1 · 如果要用一個詞語來形容香港設計中心2019-20年度的工作和發展，你認為會是甚麼？

ERIC · 我會說是「為設計重新定義」。第一，香港設計中心在2019年5月告別了14年的舊址，進駐位於荃灣區的南豐紗廠。開放式的辦公室在設計上融入了設計思維，鼓勵同事之間的溝通協作及創意思考，透過地方營造的策略重新定義我們的工作文化。

第二，因應環境的急速轉變，我們調整了舉辦活動的模式。為了在疫情下保持社交距離，我們將不少活動改為於網上舉行，嘗試全新方式連繫不同持份者，繼續與社會各界和市民大眾分享設計及創新的價值。

EDMUND · 對，事實上，大家也要重新認識「設計師」的定義。記得在早前舉行的「Unleash! 設計思維 無限可能」工作坊中，導師問到參加者當中有誰任職設計師，只有三成人舉手，但當他提問「誰在自己所屬的機構中負責策劃方案？」，便有七成參加者舉手！

不少人誤以為設計師的主要工作是美化物件。事實上，很多人正在廣義上從事設計，例如一間公司由聘請新同事、日常運作甚至運輸物流，都牽涉到大量策劃及編排流程的「設計」工作。我們希望讓社會各界知道設計是生活一部分和「人人有份」，加深他們對優秀設計和設計思維的認識，推動香港的未來發展，共同創造新面貌。

Q2 · 2019-20年發生了哪些令你們難忘的時刻？

ERIC · 在這個「TUNA」時代，我們面對著動盪 (Turbulent)、不確定 (Uncertain)、新穎奇特 (Novel) 又模稜兩可 (Ambiguous) 的局面。此時此刻，我們必須運用創意思維，以共同構思解決方案，應對各式各樣的狀況。

講到今年最難忘的時刻，必定是我們在2019年首次取消年度旗艦活動設計營商周。這次經驗促使我們進一步運用設計思維，探索如何以嶄新模式舉行接下來的活動，與業界和公眾保持緊密連繫。

EDMUND · 正如Eric所講，取消設計營商周雖然是無可奈何，但這也是一個契機讓我們推廣設計思維的應用和獨特價值。面對複雜多變的情況，各行各業都需要重新思考如何在新環境下繼續營運業務。而善用設計思維的解難及創造力，正正能針對眼前的問題構思創新方案。

Q3 · "Engaging the society" is one of the core pillars of HKDC's mission in promoting design. What have you done this year toward this respect?

EDMUND · In the past two years, with support from the government and partners across different industry sectors, we have been stepping up our efforts to promote design and design thinking in the community.

In particular, three initiatives are working in synergy to boost Hong Kong's creative vibe. These initiatives are BODW CityProg, an extension of our Business of Design Week (BODW) designed to connect the city's creative units and strengthen our creative ecosystem; Design District Hong Kong (#ddHK) with the objective of redefining public spaces and engaging people with the community through placemaking; and Design Spectrum at 7 Mallory Street in Wan Chai, with year-round design exhibitions and workshops to foster knowledge and appreciation of design among the public.

ERIC · Designers are known for their strong curiosity and inquisitive nature, with a powerful desire for change. They are also good at solving problems by thinking creatively. Through various HKDC projects, we hope to cultivate the designer DNA in decision-makers, professionals and members of the general public, as we encourage them to harness their innovative potential and create value for society.

Understanding that education in design thinking should start from an early age, HKDC has been organising customised workshops for teachers under our Unleash! programme. The idea is to inspire them to help foster, through teaching, more innovative spirit in the new generation.

As the government's strategic partner, we also seek to promote the value of design at a policy level by incorporating design thinking into every partnership project with government departments. A recent example is the "Improving Public Toilet Services" project. While we can see that it is important to improve the looks of a facility and address inherent problems, it is even more crucial to look into the user experience, and get into the nitty-gritty of management and maintenance going forward. By complementing design with technology, we can achieve more people-oriented outcomes.

Q4 · What can local designers and the Hong Kong government do to promote Hong Kong as an international design capital?

EDMUND · The inclusiveness of design facilitates access of different regional markets for designers. I would suggest that local designers try to broaden their horizons and actively explore new markets at home and abroad. Designers should "stand higher, look further, see wider and reach deeper" to capture more opportunities and acquire knowledge beyond the design discipline, such as business skills like communication and digital marketing. Our Design Incubation Programme and Fashion Incubation Programme are doing exactly that – provide all-round support for local designers to help drive the healthy development of our creative ecosystem.

ERIC · The HKSAR Chief Executive, in the Policy Addresses of 2017 and 2018, have affirmed the value of design and innovation for society and the role of design thinking as an approach to problem-solving. HKDC therefore rolled out the Unleash! programme in 2018, with a view to broadening the understanding and application of design thinking across all industries in Hong Kong. In 2019-2020, HKDC also provided training for 230 professionals in the public service sector via the Institute of Design Knowledge to foster knowledge of design thinking among decision-makers. We are grateful to have the government's support in recognition of our team's long-standing efforts.

Q5 · The government has announced plans to move HKDC to a design and fashion base in Sham Shui Po in 2023. What role would you expect HKDC to play in the community?

ERIC · HKDC has plans to relocate to Sham Shui Po and operate the design and fashion base there in 2023, which is under construction by the Urban Renewal Authority. With a long history as Hong Kong's fashion and fabric hub, Sham Shui Po has lately seen an emergence of art and cultural boutiques, creative shops and cosy cafés that attract a younger crowd. With the new design and fashion base, we look to enhance the creative vibe within and beyond the Sham Shui Po community, promote the value of design, and captivate the public with good design.

Over the years, HKDC has organised a variety of events and initiatives with the goal of redefining design and engaging different stakeholders from an all-round perspective, showing that everyone can embrace design thinking and become a 'designer'. With an expanding alliance of partners, we look forward to building a stronger spirit of collaboration to promote Hong Kong's design power far and wide.

Q3 · 「融入社會」是香港設計中心推動社會運用設計的其中一個重要方針，你們如何實踐這個方針？

EDMUND · 過去兩年，在政府和各界伙伴的支持下，我們透過各類項目在社區全面推廣設計及設計思維。其中三個重點項目互相配合，燃點香港的創意火花：由設計營商周延伸的BODW城區活動，連繫全城的創意單位，構建創意生態系統；設計#香港地為社區重新定義，通過地方營造聯繫人與社區；灣仔茂蘿街7號的設計光譜平台，為公眾策展不同設計展覽，並進行設計教育，讓更多人能夠欣賞設計的價值。

ERIC · 設計師有強大的好奇心，喜歡發問、積極求變，擅於運用創意解決問題。我們希望透過香港設計中心的不同項目，能夠把這樣的設計師DNA植根於決策者、專業人士及普羅大眾，鼓勵大家一同發揮創新精神，為社會創造價值。

我們相信設計思維應自小培養，因此透過Unleash! 為教師提供度身訂造的設計思維工作坊，啟發他們著手從教學過程，培育富創新精神的下一代。作為政府的策略伙伴，我們也會努力從政策層面著手。每逢與政府合作，我們都必定會引入設計思維。以最近與政府部門合作的「改善公廁服務」計劃為例，提升外觀和解決固有問題既是重要，但我們更應著重使用者體驗，同時考慮日後管理及維修等問題，將設計與科技融合，達致「以人為本」。

Q4 · 要推動香港成為「國際設計之都」，你們認為本地設計師及香港政府要做甚麼？

EDMUND · 設計的共融性很強，利於設計師進入不同地方的市場。我建議本地設計師嘗試擴闊視野，積極開拓海內外市場，要「企高啲、睇遠啲、望闊啲、摸深啲」，把握更多機會，掌握設計以外的知識，例如良好溝通及銷售技巧等商業技能。我們舉辦的設計創業培育計劃及時裝創業培育計劃，正好為本地設計師提供全方位支援，推動整個創意生態發展。

ERIC · 在2017及2018年，行政長官施政報告肯定了創新及創意為社會所帶來的價值，以及設計思維可作為有效的解難方法。因此，在2018年，香港設計中心推出Unleash!，希望擴闊香港各行各業對設計思維的理解和應用。而在2019–2020年度，我們透過設計知識學院為230位來自公共服務領域的專業人士提供培訓，加強決策者對設計思維的認識，繼而在日常工作中加以應用。因此，我們十分高興得到政府的支持，見證了我們團隊共同努力的成果。

Q5 · 香港設計中心計劃於2023年在深水埗進駐設計及時裝基地，你預計中心將會在該區扮演甚麼角色？

ERIC · 香港設計中心計劃於2023年進駐及營運由市區重建局發展的深水埗設計及時裝基地。深水埗區一直都是香港時裝及布藝集中地，近年更有不少藝文小店、精品雜貨店及文青咖啡店進駐。我們希望透過設計及時裝基地，進一步營造深水埗區的創意氛圍，推廣設計的價值，讓普羅大眾感受好設計的魅力。

香港設計中心一步一腳印，多年以來籌辦各種活動及項目，目標都是為了全方位重新定義設計，讓社會大眾明白到人人都可以成為「設計師」，擁抱設計和設計思維。在愈來愈多伙伴的支持下，我們期望日後繼續發揮協作精神，共同努力宣揚香港的設計力量。

BUSINESS OF DESIGN WEEK

設計營商周

Drumming Up a New Beat for Design 觸發設計商業新脈動

Design and innovation, driven by entrepreneurial spirit and business vigour, can create immense value for our economy, society, culture and living.

Business of Design Week (BODW), held since 2002, has grown into a premier annual international event for design, innovation and brands, bringing together world-renowned design visionaries and influential business leaders to converge ideas in the global city of Hong Kong. Organised by Hong Kong Design Centre (HKDC) with the Hong Kong Trade Development Council as a co-organiser and Create Hong Kong of the HKSAR Government as the lead sponsor, the BODW Summit is held in partnership with a country or city every year, with plenary talks, forums and dialogues to promote creative collaborations across industries, sectors and borders.

Some topics addressed at the Summit include the latest in space design, communication design, product design, as well as brand innovations, digital technology, creative leadership and culture and the city. Delegates are invited to explore emerging global trends in business and design from forerunners in the industry, and appreciate the many game-changing aspects of design. Alongside the Summit, BODW also features citywide events together with partners and collaborators. They include the BODW CityProg, DesignInspire, deTour and the Business of IP Asia Forum, bringing about a most eagerly-anticipated, spectacular annual celebration of design. They continue to encourage exchange and symbiosis for the creative industry and deliver on the vision of transforming Hong Kong into a centre of design excellence.

設計與創意交融，結合商業的生命力，能夠為社會及文化創造新價值。

自2002年開始舉辦的設計營商周(BODW)，發展至今已成為設計、創新及品牌的年度國際矚目盛事，雲集全球享負盛名的設計大師及深具影響力的商界領袖，於中外文化交織的香港一期一會。設計營商周由香港設計中心主辦、香港貿易發展局協辦，香港特別行政區政府創意香港為主要贊助機構，每年均邀請不同國家或城市為伙伴，舉辦設計營商周峰會、論壇、對談及展覽，促進跨行業、跨界別、跨地區經濟體的創新交流和協作。

每年的設計營商周峰會涵蓋空間設計、傳意設計、產品及工業設計乃至品牌創新、數碼科技、設計教育及文化和城市生活等，觸及創意產業前沿，邀請觀眾一同探索設計與商業趨勢，及其如何改變未來生活方式。設計營商周與一眾伙伴及協作單位在峰會期間呈獻多個精彩全城活動，包括BODW城區活動、DesignInspire、deTour及亞洲知識產權營商論壇等，成就每年一度值得翹首以盼的設計盛會，並繼續為香港創意產業帶來交流共生，實現香港成為設計之都的願景。

* The BODW Summit originally scheduled on 2 to 7 December 2019 was cancelled due to prevailing circumstances in Hong Kong. 原定於2019年12月2日至7日舉行的設計營商周峰會，鑑於香港當時的情況而取消。

FASHION ASIA HONG KONG

Dressing Up Asia 披上亞洲好時尚

As a melting pot of Western and Eastern cultures, Hong Kong is one of the top fashion cities in the world, where arts and culture make a huge splash. Presented by Hong Kong Design Centre and coinciding with Business of Design Week, FASHION ASIA accentuates the city's leading position in the fashion business.

Being the highlight of the event, "Fashion Challenges Forum" gathers 30 pioneering CEOs, business leaders and designers of various international fashion labels. The forum is unfolded over two days through a series of enlightening dialogues and conferences, looking into the success formulas of different influential brands around the world, as well as how the fashion industry can be made more sustainable.

"10 Asian Designers to Watch" is another distinctive programme of FASHION ASIA in which the works of ten talented fashion design units in Asia are exhibited. An award ceremony is held to acknowledge their outstanding creativity and craftsmanship, and the designers are also given chances to meet buyers and fashion magazine editors from across the globe, providing them an excellent platform to build up their reputation. Other fashion pieces by the designers of partner institutions and local fashion graduates are also featured in the Hong Kong Showroom and Pop-up Spaces along with the exhibition.

香港是世界時裝中心之一，亦是東西方藝術與文化樞紐，所以香港設計中心舉辦FASHION ASIA，藉以鞏固時尚貿易之都的角色。而FASHION ASIA亦是設計營商周的同期活動。重頭節目為一連兩日的「Fashion Challenges Forum」亞洲時裝商業論壇。它集合了30位世界各地品牌首席執行官、商業領袖及設計師等，聚首一堂進行對話及研討會，了解國際品牌成功模式及探索時尚業可持續性發展。

另一重頭節目「10 Asian Designers To Watch」時裝展覽展出十組傑出亞洲設計精英的作品，並進行頒獎典禮表揚他們出色的創意及工藝，設計師們除有機會與國際買家和時裝雜誌總編見面外，還可以通過展示自己的作品，提高知名度。展覽期間，來自我們活動合作伙伴的設計師及本地時裝院校的時尚畢業生和學生，亦會分別以Hong Kong Showroom及Pop-up Spaces形式展示其優秀的時裝設計作品成果。

* All the FASHION ASIA 2019 HONG KONG programmes originally scheduled to take place between 3 and 10 December – including Fashion Challenges Forum, 10 Asian Designers to Watch, Hong Kong Showroom and Pop-up Spaces – were cancelled due to prevailing circumstances in Hong Kong. 原定於2019年12月3日至10日舉行的FASHION ASIA 2019 HONG KONG之所有活動，包括亞洲時裝商業論壇、10 Asian Designers To Watch展覽、Hong Kong Showroom及Pop-up Spaces，鑑於香港當時的情況而取消。

VISION 20/21: Finding Clarity in Uncertainty

願景20/21：洞悉幻變

In times of change and uncertainty, a collaborative creative vision can make a difference in finding clarity for the future.

Held on 30 November – 5 December, BODW 2020 will bring together visionaries and creative leaders across sectors and industries from around the world to share their vision through high-level discussions, forums and masterclasses. They will provide timely insights into trends, creative leadership and the future of design, and explore topics that offer a glimpse of the 'new normal'.

在變化莫測的時代，我們必須具備創意視野，以創造不一樣的未來。

設計營商周2020於11月30日至12月5日舉行，匯聚全球各行業各領域中，高瞻遠矚的精英分子與創意領袖，在一系列重點會議、論壇和大師班中，揭示「新常態」的面貌，全面探索未來趨勢，分享真知灼見。

Cultivating A New Perspective – Merging into A World of Design

大眾新「設」想

讓我們與「設計」零距離

"Design" is not something that we can only find and experience in design museums, concept stores or art galleries. Just slow down and take a look around you. You may suddenly realise that "design" is omnipresent – on the streets of Wan Chai, in quaint little shops at Sham Shui Po, in a playground in To Kwa Wan – in any and all parts of the cityscape of Hong Kong, an interesting melting pot of Chinese and Western influences.

This year, we have organised a series of creative programmes to engage the public. These include BODW CityProg, Design District Hong Kong (#ddHK) as well as Design Spectrum, a brand-new project presenting a panoramic view of the quintessence of Asia's design culture. Through a rich variety of themed exhibitions, educational activities, and large-scale public arts installations, these programmes encourage us to open our senses and be more mindful of everyday things and places around us. Only from this perspective can we see building facades, trams, parks, and streets as the living embodiment of creativity. These programmes show us that "design" is never far from us – it is much closer to our life than we think.

「設計」不再只停留在博物館、概念店或畫廊。停下急促的腳步，環顧四周，你會驚然發現「設計」原來也在灣仔街頭、在深水埗的老店舖、在土瓜灣的遊樂場.....盡在香港中西文化交織的小城風光。

本年度我們舉辦了一系列面向公眾的創意活動－「BODW城區活動」、「設計#香港地」及全方位展現亞洲設計文化精華的全新企劃－「設計光譜」，呈現豐富的主題展覽、各種社區教育活動以及大型公共藝術裝置。日復一日，嘗試打開感官，多留心留意身邊的事物，社區裡的舊建築、電車、公園、街道通通可以化身成創意的載體。我們與「設計」的距離，也許比你想像中近得多。

Sowing the Seeds of Design in the Community

「設計」入屋三部曲

BODW CityProg, an extension programme of Business of Design Week with Create Hong Kong as the lead sponsor, aspires to "Connect City Ideas" by enlivening local communities with inspirational, outstanding design, while fostering mutual support and matching among creative units, businesses and community organisations. By invigorating Hong Kong's creative forces and promoting public interaction through design, BODW CityProg sows the seeds of inspiration, enabling them to take root in the community and thrive.

Continuing the overwhelming success of its debut in 2018, BODW CityProg returned with even more exciting programmes in November and December 2019 by connecting with over 100 partners. The programme demonstrated the value and diversity of design and shared the joy and fun of design with the general public through three collaborative platforms: "Anchor Site Festivals", "Design EduVation" and "Satellite Events & Offers".

「BODW城區活動」為「設計營商周」的社區延伸項目，由創意香港主要贊助，旨在「連繫全城，解鎖靈感」，將具啟發性的優秀設計帶入本港各大社區，促進創意社群、商業及社區機構三方之間的認識、互助及配對，集成本港創意力量，從而增加大眾與設計的互動，讓靈感在社區扎根、逐漸發芽。

首屆「BODW城區活動」於2018年舉辦後，獲得熱烈迴響。第二屆再接再厲，在2019年11至12月舉行期間，不但連繫上過百單位呈獻精彩活動，更透過「主要伙伴場地創意節」、「公眾社區教育項目」和「衛星活動及優惠」這三個協作平台，展現出設計的價值和多樣性，並與大眾分享箇中樂趣。

BODW CityProg is a citywide programme which practically brings design to our doorstep, concentrating on seven major districts including Wan Chai, Sham Shui Po, Tsuen Wan, Fo Tan, To Kwa Wan, North Point and Chai Wan, where a series of creative activities was staged in 16 Anchor Sites.

At 7 Mallory Street in Wan Chai, the COLLATE HONG KONG digital art exhibition and Eco Garden smart ecological public furniture exhibition curated by the Department for International Trade of UK gave visitors a taste of the design vigour of Britain and Northern Ireland, as though they had just arrived in the UK after a subway ride. Lovers of local culture, meanwhile, discovered the charm of Sham Shui Po (SSP) with the "SSP Shops Digital Directory" prepared by residents and creative units for the key Anchor Site partner Wontomeen on Lai Chi Kok Road. From the "DIY Workshop of Silk Quilt Making", the guided "Tour Around SSP" to the cosy "SSP Kai Fong Chit-chat" with friendly locals, participants at home and abroad were deeply drawn into the livelihoods and traditions of Sham Shui Po, made fascinating with design.

設計從未如此靠近—「BODW城區活動」遍及全港，並以灣仔、深水埗、荃灣、火炭、土瓜灣、北角及柴灣七大區為重點，進駐區內16個伙伴場地，舉行了一連串創意活動。

於灣仔茂蘿街7號，一系列由英國國際貿易部悉心準備的數碼作品及設計裝置—「Eco Garden」智能環保公共傢俬設計展及「COLLATE HONG KONG」數碼展覽，猶如一程地下鐵帶參加者直達英國，感受到英倫及北愛爾蘭豐沛的設計力。另一重點伙伴場地荔枝角道的Wontonmeen，為熱愛本土文化的朋友準備了「內城店舖與它們的所在」數碼指南，由區內街坊及創意單位建立。遊人可以體驗傳統手打絲棉被製作，參與「走進深水埗」導賞團，並與老街坊談天說地作結。不論參加者來自香港抑或異邦，都為紮根於深水埗的傳統民生設計及美學深深著迷。

1 "Design Form Festival", organised by SOSO Enterprise Limited & THY LAB, explored different forms of performance art and design to illustrate how design thinking and different design disciplines impact our interpersonal relationships. SOSO Enterprise Limited及吳視聽實驗室舉辦的「設計·形式節」，探討不同形式的表演和藝術設計，從而帶出設計思維及各設計領域如何影響人與人的關係。

2 Designer Rayman Leung shared 2D graphic skill at "Design Lab: Dismantling Dimensions with Rayman Leung", as part of the "Today at Apple" programme at the Apple Store in Causeway Bay.

於銅鑼灣Apple Store內Today at Apple環節舉行的「藝術設計實驗室」，由「設計實驗室：與梁偉文創作你的平面世界」，由平面設計師梁偉文講解如何構想2D世界，分享其設計故事。

3 The Consulate General of Italy in Hong Kong and the Italian Chamber of Commerce in Hong Kong and Macao put together the ITALIA MIA Festival to promote Italian culture, food and lifestyle.

意大利駐香港總領事館與香港及澳門意大利商會舉辦「我的意大利節」，介紹意大利文化、美食和生活品味。

4 Wontonmeen on Lai Chi Kok Road connected locals and organisations in the neighbourhood by engaging the broader community in workshops on traditional arts and crafts, such as making silk quilts.

位於荔枝角道的Wontonmeen聯繫區內街坊及團體，舉辦傳統手工藝工作坊如手打絲棉被，給予公眾參與。

5 "Eco Garden", an exhibition co-organised by HKDC and the Department for International Trade of UK, showcased a collection of smart and environment-friendly public space furniture.

Design EduVation 公眾社區教育項目

Wondering how design thinking can be applied in our everyday lives? Let's start with our streets and alleyways.

In addition to the Anchor Site events, BODW CityProg collaborated with creative communities to organise a series of captivating Design EduVation programmes to look into topical issues. At the "#CITY" workshops, streetside exhibitions and talks organised by Sham Shui Po's art space openground, participants were invited to reimagine the neighbourhood using hashtags. By collecting stories about spaces on Tai Nan Street, Ki Lung Street and Yu Chau Street, they identified a new theme for each street, and came up with three design installations to present the three streetscapes with an innovative twist. The event invited participants to discover the beauty of the local community from a new perspective, and encouraged them to get hands-on in turning creative inspirations into design.

如何將設計思維應用於生活？一切可以從大街小巷開始。

創意節以外，「BODW城區活動」更與各創意社群合作，舉辦了不少貼近時代趨勢並饒有趣味的公眾社區教育項目：例如由深水埗藝文空間openground舉辦的「#CITY」工作坊、街頭展覽及講座，就以時興的社交媒體符號「#」作為探索方式，邀請市民走進大南街、基隆街及汝洲街，收集與街道相關的空間故事後，再為三條街道綜合出代表其特色的主題，繼而轉化為三組不同的設計裝置展出，以嶄新形式呈現出每條街道的風貌。活動不但帶領大眾以全新角度發掘了本地社區的美好，參加者更學習到如何將靈感化為設計，實踐創意精神。

Satellite Events & Offers 衛星活動及優惠

The allure of design can be seen everywhere in our daily lives. Thanks to the enthusiastic support of different partners including design agencies, creative and community groups, brands, academic institutions and foreign consulates, BODW CityProg delivered over 100 satellite events that brought together design lovers from all corners of the world.

Fans of Scandinavian design explored the philosophy behind Sweden's innovations at "SWED Talk: Designing a Sustainable Future". Art group Urban Sketchers Hong Kong took to the streets with "Wan Chai Under the Sketching Pens and Camera Lens" as participants captured the cityscape with sketches. Luen Cheong Leather showcased a collection of creative aprons at "Leather Aprons for the Future" to demonstrate the seamless blend of design in every little detail of our lives. Cultivating the habit of discovering good design in our surroundings – like the satellites that have always been around us - is one of the many goals of BODW CityProg.

創意的魅力於生活處處可見，承蒙設計公司、創意及社區團體、品牌、學術機構及外國領事館等不同組織積極支持，「BODW城區活動」去年帶來超過100個衛星活動，包羅萬有，匯聚了來自五湖四海的朋友，一起享受設計的樂趣：「SWED Talk：設計出可持續發展的未來」講座集合了一眾北歐迷，共同探索瑞典創新哲學；「速寫筆下 × 相機鏡下的灣仔」由創意藝術團體「速寫香港」舉辦，帶領不少文藝愛好者速寫灣仔當下景色；「展覽：未來行業的圍裙」由深水埗聯昌皮號主辦，展示了一系列新式創意圍裙，讓人驚覺設計可以如此深入生活每一細節。習慣發掘身邊好設計的存在，一如衛星般覆蓋你我四周，才是城區活動的最終使命。

Anyone rushing through the MTR Wan Chai Station now has a reason to slow down for a moment. Whether you are just getting off the train or heading towards the platform, you can eye on a magnificent photographic installation blurring the lines between reality and fiction.

"This is Wan Chai", a permanent photographic installation has been unveiled at the upper and lower platforms of the MTR Wan Chai Station since March 2020. The project gives passengers a glimpse of Wan Chai District's character and exuberance as they arrive at the station.

Commissioned by the MTR Corporation (MTR) and jointly initiated by the Hong Kong Design Centre (HKDC), "This is Wan Chai" is a placemaking initiative with various collaborators in the creative, design and business fields from Hong Kong and abroad. These include Hong Kong Ballet, Treacle Media, UK's Department for International Trade (DIT) and

Conran + Partners. The installation is a joint creation by more than 100 participants. It captured the wonderful performance of 40 ballet dancers (principal, soloist, coryphée, corps de ballet dancers from Hong Kong Ballet) alongside other partnering units, artists, production crew and residents of Wan Chai and beyond.

The installation employs acute camerawork to underscore the dynamism of Wan Chai. It weaves realistic and imagined perspectives together in its depiction of everyday rituals. Life and theatre have a certain affinity, and this is showcased in the way the ballet dancers interact with the passers-by on the streets of the district. In this way, the MTR station becomes a stage where life is put on show. It invites the public to reimagine the transportation hub as an important social space within the local community.

自2020年3月，一個大型攝影裝置進駐了港鐵灣仔站上層和下層月台，當乘客抵達灣仔站時，就能感受到灣仔區的特色及活力。

「這是灣仔」是一個聯繫了海外及本地創意團體、商業及設計的地方營造項目。由港鐵公司委託及與香港設計中心聯合策劃，並與香港芭蕾舞團、Treacle Media、英國國際貿易部及Conran + Partners攜手創作，除了有40多名香港芭蕾舞團的首席舞蹈員、獨舞員及群舞員外，更有不同合作夥伴單位、藝術家、製作人員、灣仔街坊及市民大眾，合共多於百名人士參與其中。

作品通過現實與想像交融的鏡頭，紀錄日常生活中的「人生如戲，戲如人生」，捕捉舞蹈員與灣仔不同街道和行人互動的舞姿，將車站化身為演出生活的舞台，讓大眾重新想像、重新營造車站如何作為社區中重要的公共空間。

Small City Spots with Grand Ideas

營造小城大意義

Resembling a star-studded canopy of life enlivened with vivid imagination and captivating stories, these design attractions sprawled out across the local community set the stage for a creative journey of exploration. Launched in 2018, Design District Hong Kong (#ddHK) is a district-based, in-depth creative placemaking project involving community collaboration, group dialogue and design participation. Through placemaking efforts, the three-year programme aims to reimagine the design of public spaces and invite the public to explore what matters most to districts and communities.

乘上電車 追尋灣仔漫畫軌跡

As the “ding ding” chimes continue to be heard on the tramways, what is now known as Lee Tung Avenue in Wan Chai is best remembered as home to countless captivating comic stories.

#ddHK partnered with Hong Kong Comics and Animation Federation to present the “#ddSpecial - Hop-on Hop-off”, in which over 30 local comics artists from Ani-Com Park ventured through the neighbourhood to trace the historical footprint of Hong Kong comics.

電車「叮叮」響聲今昔不變，而利東街的前傳，原來蘊藏無數奇情跌宕的漫畫故事。

#ddHK聯同香港動漫畫聯會策劃的「#dd推介—漫漫遊」，就由三十多位參與過動漫海濱樂園項目的本地漫畫家，重繪昔日香港漫畫在此街此地的墨印足跡。

Two "Ani-Com Trams" along the arterial road in Wan Chai – the birthplace of countless comics masterpieces – became amusement rides in the company of Old Master Q, Sau Nga Chun and the like. They took visitors to Lee Tung Avenue, where comics studios and printing houses once flourished, for a nostalgic glimpse into the heyday of local comics in the 1970s and 80s.

Visitors discovered a colourful urban playground at the two "Ani-Com Tram Stops", which featured more than 30 comic characters by local artists to pay tribute to a community that has nurtured a generation of classic creations. The comics legend of Wan Chai will continue to live on for generations to come.

Strolling into a fantasyland in Victoria Park

漫步維園遇上奇幻樂園

Camille Walala's fantastical artistic universe was captured in the 13-metre-high inflatable "Walala Mansion", adding a playful touch to the familiar sight of the Central Lawn of Victoria Park. The fountain at the park entrance was also spruced up by colourful graphics, transforming the park into a surrealistic playground. Walala's aesthetic fantasyland was portrayed as a visual feast of vibrant colours and clashing dot patterns, creating a new, playful space that transcends the wildest imagination.

維園與Walala的幻境，劃破界限同步接通。來自英國倫敦的設計鬼才Camille Walala，將她的藝術宇宙，於維多利亞公園盡情發放。高達13米的「Walala倫敦大宅」吹氣裝置，屹然座立於你我熟悉的中央草坪，公園一隅的噴水池，亦以曼菲斯設計風格重新演繹，將維園重構成超現實遊樂場。Walala的美學奇想，既在她絕妙的色彩搭配、幾何波點的幻變衝擊，更是將此時此地，重新塗畫成超越想像，玩味無窮的全新空間。

Streets are the fabric of a city and the starting point for a journey into a community full of stories... In the #ddHK placemaking initiative, tours were planned with different itineraries covering creative landmarks spread across streets and alleys to help the public explore the local community from a new perspective.

Follow your own pace in a self-guided tour or listen to folklores and legends from a tour guide. There are bound to be discoveries here and there. The #ddCityMania guided tour took participants to the creative landmarks in Causeway Bay, including the "Walala Playspace" and "Ani-Com Tram Stops", for a taste of the urban variation of pop culture. You can also choose to self explore "The Newold Wan Chai" and "Pop! Get Inspired at Every Turn" to learn the history and stories of the community.

Broadening Design Horizons

拉闊設計視野

Despite strong Western influences on art and design, Asian craft, design and aesthetics remain an integral part of our everyday living, even shaping our quality of life. They are also the bedrock of Hong Kong's creative culture.

Design Spectrum, Hong Kong Design Centre's (HKDC) first public-facing platform, is housed in the Grade II historic buildings at 7 Mallory Street in Wan Chai. Sponsored by Create Hong Kong with the Urban Renewal Authority (URA) as a project partner, Design Spectrum was founded in 2019 to bring design culture closer to the community through a year-round programme of exhibitions, exchanges and promotional activities, which highlight the inextricable relationship between design and life from an Asian design perspective. Four themed exhibitions were curated by Amy Chow, an interdisciplinary design expert with extensive experience in international exhibitions. Here are five highlights from the past year:

儘管現代化及西方化的影響席捲全球，亞洲的工藝、設計及美學在我們的日常生活中以至生活品質而言，依然扮演著無可取代的角色，更是培育香港創意文化的重要基石。

香港設計中心首個面向公眾的平台「設計光譜」設於灣仔二級歷史建築茂蘿街7號，由創意香港贊助，市區重建局為項目伙伴，自2019年起透過全年展覽、交流以及各項推廣活動，以亞洲設計哲理細說設計與生活的緊密關係，將設計文化逐步帶進社區。本年度舉辦了四大主題展覽，由擁有豐富國際展覽策劃經驗的跨領域設計工作者周婉美(Amy Chow)擔任策展人，反應熱烈。以下為五個項目亮點：

Opening Ceremony

開幕典禮

Design Spectrum was officially inaugurated on 19 July 2019 in a ceremony officiated by Dr Bernard Chan, JP, Under Secretary for Commerce and Economic Development; Mr Ben Lui, Executive Director of the URA; Prof. Eric Yim, JP, Chairman of HKDC and other guests of honour.

2019年7月19日，設計光譜正式揭幕，多名主禮嘉賓出席，包括署理商務及經濟發展局局長陳百里博士，JP、市區重建局執行董事呂守信先生，以及香港設計中心主席嚴志明教授，JP等。

The Flower Plaque

花牌

Renowned local architect William Lim created an enormous flower plaque dedicated to the grand opening of Design Spectrum. A key feature of the commissioned work was the bamboo structure behind the decorated front. It showcased the resilience, versatility and agility of bamboo construction, and invited the public to admire the ingenious scaffolding craftsmanship of southern China.

本地著名建築師林偉而為設計光譜量身打造了一大型開幕慶祝花牌，此委約作品的特色是呈現花牌背面的竹製支架，以竹的結構帶出其堅韌、靈活且多變的特點同時，亦藉此誠邀大眾發掘及欣賞傳統華南竹棚架作的精湛工藝。

This creative display showcased the excellence of Hong Kong's emerging designers, presenting works from six outstanding brands: ZOEE, Novel Fineries, FURNITURY, MODEMENT, BeCandle and AOGP. QR codes were shown to direct visitors to the brands' official websites and online retail outlets.

香港設計新秀的作品同樣精彩，展示廊精選六個本土優秀品牌的代表作展出：ZOEE、Novel Fineries、FURNITURY、MODEMENT、BeCandle及AOGP。為推廣本地設計，展櫃更設有QR code供瀏覽品牌網站及網購之用。

Material Modernity: Incredible Bamboo, Paper & Wood

19.7.2019 - 18.9.2019

Design Spectrum's inaugural exhibition, themed "Material Innovation", presented nearly 100 award-winning works to illustrate how the versatility of traditional materials like bamboo, wood and paper enable Asian design to break free from restrictions of colour and style. The highlight of the exhibition was a large-scale flower plaque installation commissioned to mark Design Spectrum's debut. Other activities for visitors to explore the theme included "Sun Tanning Design Workshop", "Designer Sharing: Material Modernity" and "IDK Design Thinking Workshop: Materials Inspired by Nature".

首場展覽以「物料創新」為題，展示近百件得獎設計作品，探索亞洲設計如何靈活運用竹、木及紙三種傳統物料，同時打破色彩、風格等限制。焦點之作是為設計光譜揭幕打造的大型花牌藝術裝置。重點活動包括「晒日子設計工作坊」、「設計師分享會：壹物—現代設計力」及「IDK 設計思維工作坊：壹物佰川」等，以互動方式讓參觀者探討主題。

Refined Touch: Crossover Between Design & Craft

2.12.2019 - 9.2.2020

Curated on the theme "Craftsmanship", the exhibition showcased more than 70 works from 30 design projects and 13 design houses from Asia, bringing together brilliant works from international brands and local artists to explore the refined relationship between design and craftsmanship. From apparel, homeware to tableware, the exhibits demonstrated how time-honoured craftsmanship and contemporary design styles complemented one another. Other activities included design workshops and the screening of the documentary *The Last Stitch*.

展覽圍繞「工藝」，搜羅亞洲13個設計單位、30個設計項目，展出超過70件作品，匯集著名國際品牌以至本地匠藝的心血結晶，探討設計與工藝的微妙關係。從服飾、家品到餐具，展品盡顯當代設計風格與傳統地道工藝相得益彰。其他活動包括手造工藝工作坊及紀錄片《雙縫》放映會等。

Open Page: The Art of the Creative Process

11.10.2019 - 17.11.2019

Carrying the theme of "Open Page", the exhibition featured nearly 80 exceptional books from across Asia that visitors could touch and read. It offered a glimpse into how designers used their imagination and art sense to create captivating books with colour, font design and typography. Key exhibits included *Hong Kong Old Shops II*, *A Study on Hong Kong Beiwei Calligraphy & Type Design*, and clips of the curator interviewing specialists in publishing, education and book design in Nanjing. Visitors were also invited to take part in a sharing session by local book designers, "Make Your Own Zine!" workshops and other design appreciation activities.

展覽以「書籍」為題，展出近80本亞洲特色書籍。參觀者可親手翻閱書本，了解設計師如何運用顏色、字體設計、排版格式等設計語言，一窺做書的過程中所彰顯的想像力和藝術感。焦點展品有《街坊老店II—金漆招牌》、《香港北魏真書》，以及策展人北上南京，與多位來自出版、教育及書籍設計界別人士的訪談剪輯等。公眾人士亦可參與多項賞析活動如本地書籍設計師分享會、「做好自己Zine!」工作坊等。

In Harmony: The Way Of Tea

29.4.2020 - 19.7.2020

Centred on "Tea", the exhibition examined the relationship between mankind and tea from multiple perspectives spanning history, design, humanity and nature, showcasing 45 items including teaware, tea packaging and tea room design from 20 Asian design houses. In addition to classes for making white clay tea cups, tea tasting workshops were also held at the "Mobile Standing Tea Bar" to give visitors an opportunity to savour the enchanting art of tea through the different senses. Herb planting workshops were also staged at the commissioned installation "Herbal Pavilion".

這場展覽以「茶」為軸心，精選20個亞洲設計單位創作的茶具、茶葉包裝到茶室等45個項目，從歷史、設計、人文、自然等角度出發，多方面展示人與茶在生活中緊密的關係。周邊活動包括手捏白泥茶杯工作坊以及於「流動茶櫥」提供泡茶體驗的賞茶工作坊，讓參加者從不同感官體會茶的魅力。香草種植工作坊在同期設置的委約作品「香草亭」舉辦，讓公眾體驗耕種樂趣。

Thoughts about Design Spectrum 設計光譜回憶絮語

“Housed in a heritage building right in the city centre, the venue is appealing to tourists. I believe that promoting design culture can help improve our standard of living, because design is closely related to our life. In the future, I hope to engage designers at home and abroad in a themed design event, where they can ignite creative sparks through cultural exchanges from collaboration or even competition with each other.”

場地本身是鬧市中的一座歷史建築物，對遊客有一定吸引力。我相信推廣設計文化是改善生活的有效橋樑，因為設計正正與生活息息相關。未來我希望可以邀請外國與香港的設計師來一個主題性設計活動，透過雙方合作甚至比賽，為各自的文化帶出新的火花。

“I participated in the "Open Page: The Art of The Creative Process" Exhibition. In Hong Kong, exhibitions that focus on book design are rare, so I especially appreciate the curator's thoughtfulness in organising it, which afforded an opportunity to see high quality book design for those who know little about it. I also gave talks alongside other book designers. I think that with designers' personal sharing and guidance, the audience would find it easier to understand the significance of design.”

我參與的是關於書籍設計的『貳頁—看好設計』展覽，其實香港專注書籍設計的展覽很少，因此我非常欣賞策展人辦這個展覽，讓很少接觸書籍設計的人，有機會接觸高質素的書籍設計。我跟其他書籍設計師亦進行了對談演講，相信有設計師親身解說，觀眾會更易明白與吸收設計的養份。

“Our exhibition and workshop attracted a large audience from nearby neighbourhoods, fulfilling our hopes to reach out to local residents. Design Spectrum's exhibition themes are very diverse and appeal to audiences from different sectors. I look forward to working with Design Spectrum on ceramics related projects in the future.”

透過工作坊，希望能夠接觸到來自附近社區的居民，事實上也有不少街坊前來觀看展覽、甚至參加工作坊。設計光譜的展覽主題十分多元化，能夠吸引不同界別的觀眾。希望將來與設計光譜進行有關陶藝產品的合作。

「肆樂—草人木」參展單位及「手捏白泥茶杯」工作坊導師

“Planning for this event gave me the opportunity to experiment with glass artists, calligraphers, space designers and graphic designers, and the result well exceeded my expectations. The aesthetics, venue set-up and procedure of the tea ceremony were simply delightful. And it pleased me a great deal that everyone was able to understand and feel the way of tea, effectively conveying the message that by returning to the purest form of tea, we can return to the purest state of mind.”

是次活動規劃過程讓我有機會跟琉璃藝術家、書法家、空間設計師、平面設計師來作些試驗，效果超出了所想。不管在美學方面，整個場景到茶會過程，最欣喜是大家能夠理解和感受，能夠有效傳遞把茶回歸本源，人能回歸自心。

“We think it is a very unique choice of site and great for visitors that Design Spectrum is housed in a historic building. I hope that some permanent exhibition areas can be set up here, and more students or even children can be invited to the venue where they can learn more about creative design.”

設計光譜的舉辦地點是歷史建築，我們認為非常獨特，對於參觀的遊客來說亦相當不錯。希望該處可以設立一些永久性展區，可以的話多邀請學生甚至兒童來參觀，給他們介紹創意設計。

「參活—設計工藝式」參展設計師

“The most unique thing about Design Spectrum is how the four exhibitions and themes are each very attractive in their own right and yet intricately related to one another. As an extension programme of one of its exhibitions, the workshop I hosted aimed to transform the static observation of design into an engaged process of self-driven creation, discussion and experience of design.”

設計光譜最獨特之處在於四個展覽、四個主題，互相緊扣又各自精彩。我指導的工作坊作為設計光譜展覽的延伸活動，希望可以將參加者由靜態觀賞設計，變成能自主參與創作、討論及感受設計。

Benny Au

「貳頁—看好設計」參展設計師及「做好自己Zine!」工作坊導師

“Design Spectrum is unique in that it exudes warmth and a genuine sense of life. Its activities and events are delivered in a simple way while carrying a profound meaning, providing an immersive experience for participants who benefit from rich sensory and hands-on experiences with the design works.”

設計光譜最特別地方，在於帶有一種特別的體感溫度、真實的生活感，而活動也深入淺出，令參加者容易沉浸在作品裡，並且都能獲得豐富的感官體驗與實作經驗。

Richard Wang
Participating designer in "Material Modernity: Incredible Bamboo, Paper & Wood" and instructor of the "Sun Tanning Design Workshop"
「壹物—現代設計力」參展設計師及「晒日子工作坊」導師

“The biggest takeaway for workshop participants is they can apply what they learned to everyday life, while giving children a better understanding of planting. I hope that future Design Spectrum activities can cover more topics such as exhibitions and family-friendly workshops on children's design thinking, design for everyday life and design for the elderly.”

參加工作坊的最大得著，就是在工作坊中所學都能運用在生活中，同時讓小朋友對種植有多點認識，期望將來設計光譜的活動可以涵蓋更多範疇，例如兒童設計思維、生活設計、老人設計的展覽及親子工作坊。

“ I was delighted at the opportunity to express my creativity and preferences during the workshop process. The workshop venue, 7 Mallery Street, has preserved the architectural features of Tong Lau (Chinese tenement buildings) with a modern twist. The presence of Design Spectrum has added a certain artistic flair to Mallery Street.

在工作坊裡，我最開心的是自己的創意及喜好能在活動過程中展現，而工作坊所在的茂蘿街7號保留了唐樓的建築特色，但又帶有現代化元素，再加上設計光譜的進駐，令茂蘿街添上一份藝術氣息。

「設計·灣仔味」工作坊參加者

“ I think the workshop was as informative as it was inspiring. The instructor's sharing gave me a deeper understanding of the creative process, and taught me to express my stories and ideas through paper of different textures.

我認為工作坊的內容十分豐富及具啟發性，導師的分享令我對創作有更深體會，並透過不同質地的紙張表達了我的故事及想法。

"Spectrum", in physics, refers to a pattern of different wavelengths arranged in sequence. Design Spectrum, through a host of engaging initiatives from its exhibition themes to different appreciation events, has illustrated a colourful and diverse "spectrum" together with participants. Design Spectrum aspires to bolster the creative vibe in the community and enable the power of good design to be infiltrated everywhere in the city.

「光譜」在物理上意指由不同的波長順次排列而成的圖案。設計光譜項目內容豐富，由設計展覽的選題，乃至多元化的賞析活動，與參與者一同交織出多姿多彩的「光譜」。冀盼設計光譜的誕生，讓社區的創意氛圍日漸濃厚，將優秀設計的力量傳遍大街小巷。

BOUNDLESS VISION ENDLESS DESIGNABILITY

視野無邊 設計無限

Imparting a thoughtful clarity of vision, good design enables us to see beyond the surface and appreciate more profound and important issues than meets the eye.

The DFA Awards, launched in 2003 by Hong Kong Design Centre, consists of the DFA Lifetime Achievement Award, DFA Design Leadership Award, DFA World's Outstanding Chinese Designer, DFA Design for Asia Awards and DFA Hong Kong Young Design Talent Award. These five award programmes not only realise the winners' diverse creative outlook, but their designs enable us to "see" much further and deeper than we could ever imagine. It is this boundless vision that enable their winning projects to transcend time, disciplines, and open our minds and perspectives.

Through the design of The Mills, we see the heydays of Hong Kong's industrial past; through the "Tunnel of Light", we see new beginnings in community conservation; and through the planetarium projector, we see mankind's innate desire to explore the universe. Among the winning projects and awardees from DFA Awards, we can discover many unique perspectives on humanitarian and sustainability issues, and experience a deeper relationship between us and other people and things in the world.

好設計是一雙清澈的眼睛，讓我們看到世界種種表象之下更深遠、更重要的議題。

香港設計中心自2003年起設立DFA設計獎，創立「DFA亞洲設計終身成就獎」、「DFA設計領袖獎」、「DFA世界傑出華人設計師」、「DFA亞洲最具影響力設計獎」及「DFA香港青年設計才俊獎」五大獎項，表揚的不只是作品「好看」與否，而是設計師讓我們從作品「看」到了什麼、「看」得多深、「看」得多遠——這才是設計人應有的視野，也是優秀設計能帶給我們的廣闊眼界。

透過南豐紗廠，我們看到舊時香港工業的傳承；透過「光之隧道」，我們看到社區保育的曙光；透過投影觀星儀，我們看到人類對宇宙最原始、最深層的渴望……接下來，我們將從DFA設計獎云云的得獎作品及得獎者作品中，發掘出更多包羅萬象的人文議題，感受一眾菁英將「人文關懷」貫徹始終的設計精神，並從「設計」看見我們與世界人、事、物的深層關係。

Portrait of Rei KAWAKUBO © Paolo Roversi

REI KAWAKUBO 川久保玲

Rei Kawakubo is one of the most iconic fashion designers at the end of the 20th century. An alumna of Keio University, Japan in art and literature, she began her fashion career as a freelance stylist at a textile factory. While she preferred to keep a low profile, she ultimately earned international fame through Comme des Garçons, the brand she established.

Comme des Garçons set up its first boutique in Tokyo in 1975; by the end of the 1980s, the fashion label already boasted more than 300 outlets across the globe. Its rapid expansion was marked by various milestones: its debut fashion show in Paris in 1981, the launch of its diffusion lines "Shirt" and "Play", as well as the gather of different fashion brands in its department store, Dover Street Market. Kawakubo successfully merged fashion, art, market and pop culture together, and is widely recognised as both artist and fashion designer, creating designs that penetrate both worlds.

川久保玲是20世紀後期最具標誌性的時裝設計師之一。她在日本慶應義塾大學修讀藝術和文學，之後在一家紡織廠以自由造型師進入服裝界。為人低調的川久保玲，創立的品牌Comme des Garçons卻蜚聲國際。

1975年在東京開設首家專賣店，到80年代末，CDG在全球已開設超過300家店舖。其後品牌不斷成長：1981年在巴黎時裝展舉行首次時裝發佈會，成立副線例如「Shirt」及「Play」等系列，2004年成立雲集不同國際時裝品牌的Dover Street Market。她將時裝、藝術、市場及流行元素成功糅合在一起，被公認為時裝設計師及藝術家，顯示她的設計能夠貫穿時尚與藝術之間。

International art collective teamLab was founded in Tokyo in 2001. The group leverages the diverse expertise of its members - artists, programmers, engineers, CG animators, mathematicians and architects - to find synergy in the worlds of art, science, design and nature, using digital technology to create a unique style that revitalises the relationship between art and reality. Over the years, the collective has exhibited its works in New York, London, Paris, Singapore, Silicon Valley, Beijing, Taipei and Melbourne to the delight of local audiences, and since 2018, permanent exhibition spaces were set up in Tokyo, Shanghai and Macau. As its exhibitions gained widespread popularity, so has the group's name in the contemporary art world.

Contemporary Chinese architect Wang Shu specialises in old building renovation, gaining such practical experience over the research on the relationship between landscape and architecture. In 1997, he founded Amateur Architecture Studio with his wife. Adopting a spontaneous and experimental style, the studio strives to reshape Chinese architecture to reflect the contemporary era. Some past projects of the studio include Ningbo History Museum, Xiangshan Campus of China Academy of Art, the renovation of Wencun Village, and Fuyang Cultural Complex.

Wang's unconventional philosophy won him the Pritzker Architecture Prize in 2012. Well-known in the international design community, he has been invited as guest lecturer at top universities such as Harvard, MIT and Tongji University.

DFA DESIGN FOR ASIA AWARDS 2019

DFA 亞洲最具影響力設計獎 2019

Celebrating the Role of Asian Design for Shaping Our Future 弘揚亞洲設計 成就創意未來

The beauty of exceptional design is more than skindeep. It goes beyond the aesthetics, touching hearts and souls with the power of its impressive details. This year's DFA Design for Asia Awards continues to recognise excellent design projects in Asia: from a footbridge to a forest retreat, from wearable comfort for seniors to a planetarium projector, with every masterpiece crafted with the needs and desires of users in mind. The award-winning works fully embody the aesthetics unique to Asia and the importance of humanitarian values, while highlighting the increasingly vital role design plays in our society and economy.

真正的優秀設計從來不會只停留在視覺上的美觀，同時亦憑細節打動人心。本年度DFA亞洲最具影響力設計獎繼續表揚亞洲的優秀設計項目：從行人天橋到山林深居、從銀髮族服飾到觀星儀.....皆是從人們切身需求出發而設計的匠心結晶。一眾得獎作充分體現出亞洲獨特美學及人文關懷，彰顯設計於社會及經濟日益重要的地位。

PAY GOOD DESIGN FORWARD

將好設計意念傳出去

Hong Kong Design Centre (HKDC) launched the DFA Awards in 2003 with the aim to recognise extraordinary Asian designs, celebrate design leadership as well as acknowledge the rising force of emerging Hong Kong designers. Award recipients have the opportunity to participate in dialogues in cities across Asia, and speak about their creative processes and inspirations in front of public audiences. Over the last year, DFA Awards went beyond Hong Kong, holding exhibitions and dialogue sessions in Shenzhen, Singapore, Taichung, Tokyo and Seoul to exchange ideas with local design professionals and showcase awarded works to the public.

香港設計中心於2003年推出DFA設計獎，目的為透過獎項表揚亞洲設計，得獎者更有機會於亞洲不同城市參加設計主題對談、分享創作過程及心得，其作品亦會作巡迴展覽，讓大眾認識更多優秀設計作品。過去一年DFA設計獎除了在本埠，亦有到深圳、新加坡及台中舉辦DFA設計獎展覽及設計師對談會，更率隊到東京及首爾，除了與當地設計業界從業專才交流，亦為一個面向當地民眾展示得獎作品的好機會。

Seoul exchange session and exhibition 首爾分享會及展覽

The event took place from 6 to 18 May 2019 in Gangnam District's Starfield Library in Seoul, with Prof. Eric Yim, Chairman of HKDC as the officiating guest. Together with Prof. Jooyun Kim, judge of the DFA Design for Asia Awards 2018, six award winners from Korea shared the intriguing concepts behind their designs.

活動在2019年5月6日至18日於首爾江南區三成洞Starfield圖書館舉行，主禮嘉賓為香港設計中心主席嚴志明教授，DFA亞洲最具影響力設計獎2018評審Jooyun Kim教授及六位來自韓國的得獎者獲邀分享其作品背後的设计思維及意念。

Tokyo exchange session and exhibition 東京分享會及設計獎展覽

The exhibition was held between 25 April and 9 May 2019 in GOOD DESIGN Marunouchi, Tokyo. Free for public visitors, it brought the winning works of the DFA Awards under the spotlight and paid tribute to the award recipients. Naoki Terada, a judge of the 2018 edition and other DFA Awards winners shared their design insights at the exchange session.

展覽在2019年4月25至5月9日於東京GOOD DESIGN Marunouchi免費開放予公眾參觀，展出「DFA設計獎」的得獎作品及得獎者簡介，2018年評審寺田尚樹先生及多位DFA設計獎得獎者參與分享。

God created day and night with the sky as his painting canvas. The collection is inspired by the vibrant colour gradients in the sky seen between day and night. Aries interprets the spiritual shift between dusk and dawn differently from others. For her, that blurred line in the process of transition is where both ends of life meet to create something beautiful, constant, liberating and non-binary, as exemplified by the androgynous design concept behind the MODEMENT label.

Blossom

The design inspiration comes from the word "Blossom", as the collection plays on the structure, form and colours of blossoming flowers. Ruffles are the highlight of the design, together with gradient colours ranging from beige to maroon or turquoise. The ruffles are delicately inserted into the seamlines of wool fabric, creating a three dimensional textural effect representing the full blossom of flowers.

創作靈感來自「盛放」一詞。設計描繪花卉綻放時的形態、結構及顏色。摺邊是這系列的重點，每條摺邊均精巧地縫入羊絨內，形成立體結構，再加上漸變效果—由米色到棗紅或湖水藍，形成一片花卉盛開的美景。

1996-

This collection portrays a story of imagined death. Trailing a fading spirit into a tunnel of trees, the collection illustrates one's last journey with fleeting life memories. Contrary to the perception that death will leave nothing behind but emptiness and loneliness, love can actually take a different form of existence and continue to dwell in the memories of our beloved ones. Memories are, therefore, proof of love.

ON A JOURNEY OF ENDLESS INSPIRATIONS

踏上這無盡靈感旅途

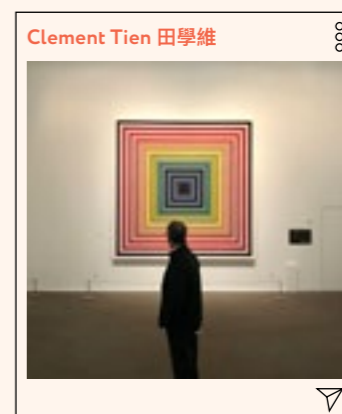

When a group of young Hong Kong designers are taken to California on a 9-day inspiration trip, what kind of creative sparks would fly? Twelve emerging design talents participated in the fourth Design Exchange Tour (DX Tour) organised by Hong Kong Design Centre (HKDC) in San Francisco and Los Angeles. With thriving creative industries wielding global influence, these famous west coast cities in California gave tour participants much to learn and explore on the other side of the globe.

The action-packed trip kicked off on 14 September 2019 in San Francisco. The designers took part in the "Co-creating Hong Kong" exhibition co-organised by the Hong Kong Economic and Trade Office, San Francisco and HKDC, which featured 14 unique projects by Hong Kong's rising creative talents including the designers themselves. They were then taken on exchange tours to exciting design firms like IDEO, Oculus, Whipsaw and Autodesk Gallery, where they explored new frontiers in product innovation and the application of design thinking in business and social domains.

當一眾香港年輕設計師踏上地球彼端的美國加州大地，會迸發出怎樣的靈感火花？12位香港年輕設計師，通過由香港設計中心舉辦的第四次「DX設計交流」在美國三藩市和洛杉磯進行一系列交流及考察活動。加州的創意產業舉世聞名，發展極為蓬勃，影響力更遍及全球，今次旅程正是參加者觀摩學習的良機。

一行人於2019年9月14日出發，為期九天的行程相當豐富，先出席於三藩市劇院區中心舉行的「Co-creating Hong Kong」展覽，由香港駐三藩市經濟貿易辦事處及香港設計中心共同主辦，展出了14個香港新晉設計師的項目，包括部分參與是次啟發之旅設計師的作品，引領兩地進一步交換創作心得，並探索未來合作機遇。此外，一眾交流團成員更前往三藩市多間設計公司如IDEO、Oculus、Whipsaw及Autodesk Gallery考察產品創新以至設計新思維在商業及社交層面的應用。

In Los Angeles, the Hong Kong design talents examined how to address global challenges in technology, community and sustainability with design and design thinking at the "Think Asia, Think Hong Kong" conference. They also visited design powerhouses, including the Fashion Institute of Design and Merchandising, Portal XR, Southern California Institute of Architecture and Virtue, to learn about America's latest advances in design, fashion, spatial experience, entertainment and digital media.

Upon their return to Hong Kong, the designers were invited to share their inspirations from the trip at HKDC's pavilion at DesignInspire 2019, by drawing ideas from the "Co-creating Hong Kong" exhibition. While the show marked the perfect ending to the tour, new ideas arising from the cultural encounters are just beginning to sprout...

另一邊廂，在洛杉磯舉行的「邁向亞洲 首選香港」設計x科技專題研討會，邀請了香港設計界代表探討如何以設計及設計思維應對科技、社區和可持續發展等全球挑戰。而在洛杉磯，考察團亦拜訪時尚設計商業學院、Portal XR、南加州建築學院及Virtue等設計重地，了解美國於設計、時裝、空間體驗、娛樂及電子媒體各領域的最新發展。

回港後，香港設計中心邀請一眾完成交流的設計師，以早前於三藩市展出的「Co-creating Hong Kong」展覽為藍本，將旅程期間汲取的新知識轉化為創作靈感，於DesignInspire 2019展覽的香港設計中心主題展館中展出，為交流之旅劃上圓滿句號。不過，文化衝擊帶來的新點子才剛開始萌芽.....

HONG KONG FASHION TALENTS SHOWCASE

Wool Fashion Like No Other

不一樣的羊毛時尚

Wool is not only warm and soft to wear, but offers endless design possibilities. Like the wool-based creations by local fashion designers under the Design Incubation Programme and Fashion Incubation Programme at the "Hong Kong Fashion Talents Showcase". Co-organised by Hong Kong Design Centre and The Woolmark Company, an authoritative international certification body for the wool industry based in Australia, the showcase was displayed from 30 November to 10 December 2019 on the first floor of The Mills in Tsuen Wan. The fashion outfits were characterised by bold colours and daring, innovative tailoring techniques that highlighted the many facets of wool including as a delicate and versatile material, demonstrating the sophisticated craftsmanship and infinite creativity of local fashion designers.

一件羊毛大衣除了帶來溫暖、柔和的感覺，還有什麼可能性？香港設計中心與來自澳洲的羊毛業國際權威認證機構-The Woolmark Company合作，在2019年11月30日至12月10日期間於荃灣南豐紗廠的一樓中庭及走廊舉辦「Hong Kong Fashion Talents Showcase」展覽，邀請設計創業培育計劃及時裝創業培育計劃的本地時裝設計師，展出他們以羊毛為主要物料創作的服裝系列。一眾作品用色及剪裁大膽新穎，將羊毛細緻同時風格多變的潛質發揮到極致，盡顯本地時尚設計師的高超技藝及無窮創造力。

DESIGN INCUBATION PROGRAMME 設計創業培育計劃

As the city's up-and-coming designers stand ready to realise their innovative ideas, the Design Incubation Programme (DIP) of Hong Kong Design Centre provides all-round support to help them cultivate the business acumen needed to thrive in Hong Kong and beyond.

During the two-year incubation period, the designers are offered office space, subsidies, training as well as exchange and business opportunities that are essential for developing their professional competence and network. More than 200 designer brands have graduated and over 90 percent have stayed in operation for at least two years after graduation. The programme is funded by Create Hong Kong with support from business partners, academic institutions, angel investors, professional bodies and other organisations in concerted efforts to contribute to Hong Kong's creative industries.

一眾本土創意種子已經蓄勢待發，香港設計中心的设计創業培育計劃為設計師創業初期提供全方位有效支援，就如同為種子提供良好土壤及灌溉，希望培養這些設計界初創企業，長成一棵棵蒼翠挺拔的大樹。

獲選设计公司可於兩年培育期內享用辦公室空間，獲得資助、培訓、交流以至參與商業項目的機會，從中裝備自己、發展業務及擴闊人際網絡。至今已有超過200間培育公司畢業，而逾九成初創企業更於畢業後營運長達最少兩年以上。計劃由創意香港資助，更得到工商界、大專院校、天使投資者及專業團體等廣泛支持，共同為香港創意產業發展出一分力。

A Human-centric Era: Unlocking the Power of Design Thinking

人本時代：解密設計思維

Driven by a desire to satisfy our wants and needs, design thinking seeks novel solutions to different issues and engenders endless possibilities. This concept has gained overwhelming traction around the world for two decades, paving the way for more human-centred innovation for society, education and businesses alike. Committed to our mission of promoting the wide and strategic use of design thinking at the community level, we have conducted various design thinking forums, classes and workshops this year including Knowledge of Design Week, and through our Institute of Design Knowledge and Unleash! Empowered by Design Thinking programmes. By integrating design thinking into all aspects of life, we are looking to create a better society and boost Hong Kong's competitiveness in the long run.

It's official - the power of design thinking is now unlocked!

設計思維從人的需求出發，為各種議題尋求新穎的解決方案，並創造無窮可能，是近二十年來風靡全球的革新概念，帶領社會、教育界及商界邁向自主創新的時代。今年我們秉持推動社會更廣泛和具策略性地運用設計思維的宗旨，透過旗下各種知識交流活動及平台，包括設計智識周、設計知識學院及Unleash! 設計思維，無限可能，以論壇、課程及工作坊等將設計思維引入各行各業，鼓勵他們加深了解及應用，共同締造一個具競爭力的香港社會。

設計思維正式解碼！

KNOWLEDGE OF DESIGN WEEK 2019

設計智識周2019

Designing Digital Futures 智用設計·數造未來

The objective of Knowledge of Design Week (KODW) is to encourage different industries to exchange creative ideas and learn from one another, exploring solutions to the current challenges we face from multiple perspectives.

Living in the digital age, it is almost impossible not to consider technology in everything we do. It is only when technology incorporates design that prioritises human needs and our wellbeing that positive impacts can be created for business, healthcare, urban development and other aspects of our lives.

Curated under the theme "Designing Digital Futures", KODW 2019 was held between 17 and 21 June 2019. Its programme included three forums, seven workshops, an InnoDesign Leadership CEO Forum and a Roundtable on Public Service Innovation. Thirty internationally renowned creative leaders were invited to investigate how human-centred designs and digital technology could work in sync to enhance our lives and benefit society as a whole.

香港要成為亞洲設計之都，加深各行各業人士對設計思維的了解不可或缺。舉辦「設計智識周」(KODW)就是旨在鼓勵跨界別學習及交流，透過不同的觀點與角度，探索設計如何解決社會上各種挑戰。

活在當今的數碼年代，科技有著無可取代的重要性。然而科技必須結合以人為本的設計，才可策略地應用到社會上各個範疇，如商業、都市環境，以至醫療保健等民生議題，令大眾得益。

KODW 2019以「智用設計·數造未來」為年度主題，於6月17至21日期間舉行了三個論壇、七個工作坊、設計及創新領袖論壇以及公共服務創新圓桌會議，邀請了30位國際級設計界及商界領袖，探討人性化的設計如何配合數碼科技創造各種方案，滿足用者需要及提升用者體驗。

Online shopping has become a significant component in the retail business. The data collected from customers allows retailers to construct a personalised consumption experience more desirable to each customer. In this forum, the speakers shared emerging trends that are transforming the global retail landscape, as well as how to assimilate innovative retail concepts into local cultures. They also provided insights on how retail brands obtain demographic data and dissect consumer behaviour trends, which had a direct influence on omnichannel and future retail patterns.

#數碼醫療與健康

Healthcare in Hong Kong has long been acclaimed for its quality and efficiency. Yet a shortage of medical professionals and the city's ageing population pose certain challenges to the system. Digitalisation provides many possible answers. In this forum, the presenters highlighted new medical opportunities and solutions brought forth by the digital era. In addition, they addressed some of the ways in which connecting design with digital technology could improve our medical infrastructure, products, services and experiences.

香港醫療系統一直高質素及高效率，但同時亦面臨醫療人員設施短缺、人口老化等問題所挑戰，數碼化正好為此提供了出路。加上經歷過疫情，世界對於醫療的需求及標準將會大大提高，要改善醫療質素，數碼界也可以出一分力。在「數碼醫療與健康」論壇中，講者分享了數碼時代為醫療健康領域帶來的創新機會和解決方案，如何令設計、數碼與科技的連繫更緊密，從而提升我們的醫療系統、服務、產品和健康體驗。論壇亦聚焦當下香港醫療系統的情況。

"As an innovator of service design, we must understand the needs of different stakeholders, including healthcare professionals and patients."
「要為服務設計帶來創新，我們必須了解不同持份者的需求，包括醫療專業人員和病人。」

Dr. Hong Fung, Executive Director and Chief Executive Officer of CUHK Medical Centre
香港中文大學醫院執行董事及行政總裁馮康醫生

"With a focus on people's needs, human-centred design undeniably serves as a bridge to effect meaningful and compelling user experience and create better healthcare systems."

Breaking Space and Media Boundaries: Co-creating Augmented Experiences 打破空間與媒體界限:「玩」轉虛實設計

The virtual and physical worlds intertwining is one of the common tropes in filmmaking. But with the rise of mixed media, this has become a reality. Conducted by design studio Tin&Ed, this experimental digital media workshop blends art, design and fun. The two instructors shared their experiences in conjuring up interactive stories where the virtual is indistinguishable from the real.

不少電影都有描述數碼與現實世界交錯, 可會想到隨著混合傳媒興起, 這已經是事實? 是次工作坊邀請到Tin&Ed工作室帶參加者走進混合媒體的世界: 這個融合藝術、設計和玩樂元素的數碼媒體實驗的工作坊, 二人在工作坊內分享了為觀眾打造虛實互動體驗的內幕故事。

Masterclass by Javier Mariscal: Digital Drawing - Move in Hong Kong Javier Mariscal 傳意設計 大師班: 躍動香港

Spanish master Javier Mariscal is one of the most original and charismatic designers of our time. Known for his love for Hong Kong, he has visited the city for four times already. This workshop took participants on a tour to understand his creative process. They were able to get a sense of the designer's genius through his digital illustration demonstration as well as other drawings, moving images and maps. The lively group discussions also invited participants to define and analyse Hong Kong's core values.

來自西班牙的創意大師Javier Mariscal, 是當代其中一位最具原創性和個人魅力的設計師, 雖然他去年已經是第四次訪港, 不過他對香港的熱情仍然與日俱增, 在工作坊內更帶領了參加者穿梭他的創意歷程, 透過生動活潑的集體討論, 嘗試定義及剖析香港的核心價值所在, 參加者可從他的數碼繪圖示範、一系列插畫、流動圖像和地圖感受到他的創意。

KNOWLEDGE

設計知識學院

Study · Think · Practice
學習 · 思想 · 實踐

Design thinking is not an exclusive skill or tool for designers. It is an approach that anyone can learn and use to solve everyday problems with innovative, human-centric solutions. The executive training arm of Hong Kong Design Centre (HKDC), the Institute of Design Knowledge (IDK) is committed to promoting awareness and application of design thinking across industries and sectors, in the hope of nurturing more creative leaders for driving innovation in Hong Kong.

設計思維豈是設計師的專利！它是一套人人適用的思考模式，透過以人為本的創新方案，解決日常生活各種問題。香港設計中心旗下的設計知識學院旨在提供專業創新及設計管理培訓，提升各行各業對設計思維的認識及應用，望能為香港社會培育出更多創意及睿智兼備的領袖。

Eight Design Thinking Tips

八個設計思維錦囊

IDK has shared many benefits and tips of design thinking through its social media channels since last year. There is no shortage of real-life examples we can learn from in the creative application of design thinking in the public and private sectors, and even in our daily lives.

Rapid ethnography is a research method commonly used by anthropologists. It relies heavily on first-hand observations, interviews and interactions to understand specific target groups before consolidating and analysing data to identify their hidden needs.

快速民族誌透過身歷其境的觀察、訪談和互動，了解特定目標族群，進而歸納和分析收集所得的數據，從中找出群體潛在的需求，是人類學者常用的方法。

SCAMPER is a creative thinking method to inspire divergent thinking and guide designers to improve their products, services and user experiences via seven thinking modes – Substitute, Combine, Adapt, Modify, Put to other uses, Eliminate, and Rearrange.

奔馳法是一套創意思考方法，透過七個切入點，包括替換、整合、調整、修改、其他用途、消除及重組，引導設計師思考如何改良服務、產品及用戶體驗，有助應用擴散性思維。

In complicated situations, **stakeholder mapping** helps us outline the role of each stakeholder involved, to facilitate a better understanding of users from a broader perspective and to create truly human-centred products or services.

面對錯綜複雜的問題，要透徹了解每個用家及持份者之間的關係，可以使用**持份者關係圖**，列出牽涉在方案內眾人的角色，從而以更宏觀的角度了解用家，創造出真正以人為本的產品或服務。

In the process of improving a product or service, an **A/B test** provides an effective way to test ideas through comparison. For example, controlled experiments can be conducted to develop an understanding of online user behaviours and preferences.

在改善產品或服務的過程中，**A/B測試**能有效地快速驗證想法和假設。例如，透過一系列對照實驗，了解網上用戶的行為與偏好。

設計知識學院由去年開始以社交媒體作為公眾推廣平台，進一步將設計思維的裨益及竅門一傳千里。其實在公私營機構乃至日常生活中，已經存在不少妙用設計思維的實例，值得大家借鏡。

Pain point is a concept that advocates the importance of identifying people's real needs and difficulties before customising a solution. The process involves collecting user feedback and behavioural data in order to hammer out a customised solution.

痛點是商界經常提及的概念：主張先了解受眾的需要與困難，然後對症下藥。尋找痛點的過程牽涉收集用家意見和行為數據，以理解出他們的真正所需，繼而度身訂造方案。

Innovative applications of design thinking abound in the design of everyday things. A good example are the road curves of highways. The curves are a deliberate feature to avert traffic accidents by making it easier for drivers to concentrate, unlike straight roads which can wear drivers out and cause them to swerve out of lane. In many countries, there is a set limit on the length of a straight road to keep drivers alert on the road.

巧用設計思維的日常設計不少，例如為何很多公路會被刻意設計成九曲十三彎？原來在筆直公路行駛，司機容易因疲勞而偏離車道釀成交通意外，因此很多國家會限制直線公路的長度，提防司機走神。

In 1996, designers developed a game-changing toothbrush for children with a thicker handle, based on the observation that children always held their toothbrush in a clenched fist, as their fingers are less well-developed than an adult's. The children toothbrush is an excellent example of applying design thinking for innovation.

另一個活用設計思維的創新成果是兒童牙刷：1996年，口腔產品品牌準備創造新的兒童牙刷，設計師就觀察到小朋友的手指不及大人靈活，常用拳頭緊握牙刷，最終設計出較粗身的兒童牙刷，從此改變市場面貌。

Workshops for Professionals from Different Disciplines

跨界專業工作坊

By applying design thinking at work, professionals not only can bring innovation to their institutions but also provide product and service experiences more suited to user needs. Therefore, IDK actively promotes design thinking to different units across disciplines and sectors. More than 680 civil servants have participated in our programmes since 2013. In the past year, we have provided training to over 230 public services professionals and 40 education professionals, with many institutions and members of the public also benefiting from them.

Design Thinking Tool Kit

設計思維小工具

How should we start applying design thinking in our day-to-day lives? The following tools guide beginners in seeking innovative solutions through four stages – Discover, Define, Develop and Deliver.

想在日常工作中活用設計思維，應該從何入手？以下小工具有助新手實踐「探索」、「定義」、「構想」、「執行」四個階段，得出創新的解決方案。

Discover 探索

Photo Safari 照片探尋

Apart from gathering data, photo safari is also a useful tool for studying specific user groups. Researchers observe users' daily experiences and take pictures for record. Alternatively, users can also take pictures of things or places. By putting the photos together, we get a comprehensive visual impression of their needs, perceptions and feelings.

要了解特定用戶群體，除了收集數據信息，「照片探尋」也是一個好方法。研究者會觀察用家的日常體驗，拍下照片作記錄；用家亦可提起相機，拍下事物與環境。只要整理所得照片，就能得出一個全面的視覺印象，理解他們的需要、觀點和感受。

User Journey Mapping 用家體驗歷程圖

User journey mapping provides a visual and diagrammatic representation of a user's experiences such that changes can be made apparent and understandable. It enables us to identify pain points and moments for improvement and open up new problem-solving possibilities.

「用家體驗歷程圖」以按時序的圖表表達用家的體驗，可以觀察當中變化，令我們能夠辨別出痛點和每個出現改善的契機，找出新的解難可能。

Define 定義

Segmentation 分類排列

There are different ways to segment or sort your findings, and presenting it visually is one of them. Segmentation reveals patterns of things and is a good way to gain insights.

將資訊分類排列的方法有很多，以視覺方法呈現是其中一種，「分類排列」可以顯示事物之規律，讓你找到新的看法。

User Personas 用家人物誌

In contrast to conventional analysis methods that mostly sort stakeholders by age and gender, turning them into personas provides a basis for in-depth analyses.

傳統分析多以年齡及性別等劃分持份者，「用家人物誌」將持份者以用者群組分類，其後便可針對不同族群作出深入分析。

Develop 構想

Draw it, Build It 繪畫與建造模型

Ideas are intangible and sometimes difficult to describe in words. Using visual aids can help us express ourselves: simply sketch your ideas on a piece of paper, or build a prototype using building blocks, clay, cardboard, or anything you can get hold of.

概念雖然難以用言語表達，我們可以利用視覺工具表達：在紙上直接畫出想法，又或用積木、泥膠、硬卡紙等任何物料來製作模型。

Mini Storyboard 迷你故事板

A mini storyboard can help you articulate the details of an abstract idea, especially user experiences and journeys. Through the mini storyboard, you can also evaluate the effectiveness of your solution from the user's point of view. It is particularly suitable for communicating creative ideas for apps, services, events and processes.

「迷你故事板」能協助你描述抽象事物的細節，特別是用家體驗和歷程，你亦可以從用家角度評估成效，特別適用於闡釋應用程式、服務、活動或流程等創新意念。

Deliver 執行

Prototyping 製作雛型

Prototyping realises and tests your ideas. You do not need to spend too much time to build a perfect prototype. Whether it is a physical model, a sketch or a scenario, it will prompt you to consider which parts can be improved.

製作雛型能將概念化成實體，便於測試。過程中應多作嘗試，不必太着重外觀，而且用料不拘，可以是一個實體模型、一張草圖甚至是一個情境，均會刺激你思考當中哪些元素可以改良。

Testing and Evaluating 測試與評估

Share your concept or show your prototype to users. Capture their feedback systematically in a grid to help identify the strengths and potential of your concept.

向用家分享你的概念或雛型，聆聽他們的想法，將收集到的意見寫在方格上，便於分辨概念的優點與可行性。

UNLEASH! Empowered by Design Thinking

設計思維·無限可能

Motivating the City with the Power of Creative Problem Solving 創意解難·全城啟動

Globalisation, technological developments and higher life expectancy have brought forth new possibilities as well as challenges to business and society. Capitalising on opportunities to reshape our community based on these trends require new approaches to thinking, new creative solutions and new patterns in conducting our everyday lives, and such are the areas where design thinking matters.

The Chief Executive's 2017 Policy Address stated that "Design thinking is a problem-solving capability, and a new way of thinking that promotes value-adding and advocates interdisciplinary collaboration." Shortly after in 2018, Hong Kong Design Centre (HKDC) initiated the "Unleash! Empowered by Design Thinking" programme. Its focus in 2019-2020 is on promoting design thinking in the business and education sectors, and also to the wider society.

全球化、科技發展及人均壽命的延長為我們的事業、業務及社會帶來新挑戰。這些前所未有的問題需要新的思維、新的解決方案及新的工作模式去面對，這正是需要設計思維的地方。設計思維，就是在解決問題之前，透過了解人的需要，認清問題所在。

香港政府在2017年的施政報告上表明：「設計思維是一種解難能力，更是一種增值和倡導跨界別合作的新思維。」香港設計中心在2018年開展了「Unleash!設計思維·無限可能」，2019年至2020年度的重點在於建立商界、教育界、社會及整個城市的設計思維能力。

In Business 商業篇

Professional Tips 專業教路

Traditionally, design thinking puts a premium on user desirability, business viability and technological feasibility. Stephen Wong, founder of Design Thinking In Action, believes that since the business landscape is changing every day, sustainability is especially important in the business sector than anywhere else. "Companies nowadays have to look beyond commercial gains and disrupt the entire business, from the production chain to the concept of consumerism, by working with investors, team members and partners. A human-centred solution can create meaningful value for the society, which will in turn ensure business sustainability," he said.

傳統的設計思維最講求用戶需求性、企業存活性及科技可行性，Design Thinking In Action創辦人黃思遠認為商界環境每天都變化，加上思考持續性對商界而言比其他行業更加重要。他說：「不能只著眼商業利益，反而是透過投資者、企業團隊及合作伙伴，由生產鏈到消費主義來一場全面的思想變革，甚至為社會創造意義，延續企業的發展。」

about Stephen S.Y. Wong 黃思遠

Stephen has a Bachelor of Arts degree in marketing at the Michigan State University, the US, as well as a Master of Science degree in Management at the Stanford graduate school of business. He established Design Thinking In Action in 2016, assuming the roles of Founder and Chief Curator. The company aims at collating the human-centred design experiences from various thought leaders, educators and industry professionals, promoting design thinking through collective learning and growth.

美國密西根州立大學市場學文學士及史丹福大學商學院管理學理碩士，2016年成立Design Thinking In Action，為創辦人及首席策展人，旨在集合不同思維領袖、教育家和業界人士分享以人為本的設計經驗，學習相關知識共同成長，從而推廣設計思維。

In Education 教育篇

Professional Tips 專業教路

Knowing how to ask questions is a crucial part of the learning process, and cultivating a design thinking mindset allows students to acquire essential problem-solving skills. Established by Angelina Lo-Chui, CreativeKids devised a teaching approach with design thinking which combines arts and design. One of its projects "Playful Public Design by Children" challenges students to create solutions to satisfy the needs of both people and animals in Shing Mun Country Park. It develops their empathy and ability for ideation. The project represented Hong Kong to compete in the UIA Golden Cubes Awards.

懂得發問是學習過程重要的一環，但懂得解答問題同樣重要。教學時培養學生的設計思維，可讓他們掌握所需的解難技能。徐羅國彥女士成立的「奇極創作室」，便運用設計思維教學，推行藝術與設計糅合的教學法。例如其「玩樂公共設計」項目，著學生滿足城門郊野公園內不論人還是動物的需求，意在培養學員的同理心以掌握設計思維，項目更代表香港競逐國際建築師聯盟舉辦的「金立方獎」。

about Angelina Lo-Chui 徐羅國彥

Founder of CreativeKids and IMCreative, Angelina has worked in arts education for over 30 years. Both initiatives strive to boost children's creativity via visual arts. She has a bachelor's degree in visual arts at the University of Hawaii and a master's degree in religious education at Golden Gate Baptist Theological Seminary. She is currently studying in the doctorate programme at PolyU School of Design.

從事藝術教育超過30年，為「奇極創作室」和「創想聯萌」創辦人，透過視覺藝術令兒童的創意得到充分發展。美國夏威夷大學視覺藝術學士、加州金門浸會神學院宗教教育碩士，現時正攻讀香港理工大學設計學院博士學位。

In the Society 社會篇

Professional Tips 專業教路

While new problems inevitably arise in every society, design thinking and creativity can provide far more solutions than problems. Design thinking grants stakeholders the access to participate, and aligns their goals in the face of change and uncertainty. Yanki Lee founded Enable Foundation in 2017 to shed light on the issue of the ageing population. Its three activities, namely "Dementia Going", "Fine Dying" and "Productive Aging", turned seniors into creative partners to help young people contemplate the problems arising in old age. "Envelope", a design generated from "Fine Dying", is now one of the ash dissipater options for funerals held at the Garden of Remembrance, operated by the Food and Environmental Hygiene Department. It provides a good example of how design thinking can be used to address social issues.

社會問題無日無之，設計思維透過賦權予市民，讓持份者參與當中，加上在變更中樹立共同理念，或會成為解決問題的出路。李欣琪博士2017年成立啟民創社，關注社會老齡化，舉辦了「腦化城市」、「死物習作」及「老力生產」三個專題活動，邀請長者以創意伙伴身份和年輕人一同思考老齡所面對的問題。當中「死物習作」設計的紙撒灰器「信別」，已成為食環署轄下紀念花園進行花園葬禮時可以選擇的撒灰器之一，為以設計思維解答社會議題的實例。

about Yanki Lee 李欣琪

Yanki is the Associate Professor of Linnaeus University in Sweden, master's graduate in architecture at the Royal College of Art, the UK, doctor in design at the Hong Kong Polytechnic University, and a former Research Fellow at the Helen Hamlyn Centre for Inclusive Design, the Royal College of Art. In 2013, she was invited by the Vocational Training Council to return to Hong Kong to develop a social design studio. Later on, she founded the non-profit Enable Foundation, using design to propose cross-generation, cross-industry solutions to global social issues.

瑞典林奈大學副教授、英國皇家藝術學院建築學碩士、香港理工大學設計博士，歷任英國皇家藝術學院海倫·哈姆林設計中心共融設計研究員教授。2013年香港職業訓練局邀請她回港成立社會設計工作室，又成立非牟利機構啟民創社，透過設計研究，為全球社會議題提出跨代跨界別的創新方案。

Unleash! Forum for Educators Unleash! 教育工作者論壇

HKDC was invited to organise an "Unleash! Forum for Educators" to cultivate a better understanding of design thinking among teaching professionals. Held on 13 December 2019 at the Learning and Teaching Expo, a major annual education expo in Asia, the forum featured lectures and experiential workshops hosted by over 20 experts from design, education, technology and other fields. As teachers learned about the value and application of design thinking, the groundwork was laid for a creative boom among the new generation.

香港設計中心應邀於亞洲年度大型教育博覽會「學與教博覽」，舉行「Unleash! 教育工作者論壇」，向本地教師推廣設計思維。論壇於2019年12月13日進行，邀請了20多位來自設計、教育、科技等界別之專家主持講座及體驗工作坊，讓教育工作者深入了解設計思維的價值，並將之應用於教學，讓創意在新一代之間無限綻放。

八個接軌設計的方法

A thousand-mile journey begins with a small step forward. Spanning different online and offline platforms, Hong Kong Design Centre has put together eight initiatives, some in conjunction with partners, to put design within our reach, and encourage us to take small steps forward on this journey of creativity. These initiatives enable anyone from design professionals to the public to connect with outstanding design and design thinking – one step at a time.

千里之行，始於足下。以下八個項目由香港設計中心精心策動或與緊密伙伴聯合舉辦，橫跨線上線下各個媒介，無論是設計從業人士抑或大眾，都能通過這些起點，一步步接軌優秀設計及設計思維，踏上創意之路。

IN QUEST OF CREATIVE INSPIRATIONS 尋覓創意靈感

In a world offering such diverse experiences and perspectives, even the smallest encounters can ignite new inspiration, and open a new dialogue with design. An annual gala of creativity, DesignInspire showcases the works of outstanding designers, design schools and up-and-coming brands to fulfil our quest for new inspiration.

The 2019 edition of DesignInspire organised by Hong Kong Trade Development Council (HKTDC) and themed "Co-create Sustainable Cities" took place from 5 to 7 December at the Hong Kong Convention and Exhibition Centre (HKCEC). Among the thematic pavilions, "Urbanovation" presented design works for experimental business solutions, smart living and STEAM education produced by 25 collaborators. Reputed as the world's most advanced entertainment robot, "Titan the Robot" from the UK amazed visitors with its movie stunt-like agile movements, with the aid of hi-tech environmental sensors. The "Hong Kong Creative Force" pavilion showcased a wide collection of original products created by aspiring designers from Hong Kong.

世界這麼大，人與人的相遇交流，每每造就靈感迸發而生，而這正正是接軌設計的第一課。每年一度的DesignInspire，就是一場盛大的創意盛會，雲集國際傑出設計人才、設計學院與潮流品牌攜手引發新靈感。

2019年度的DesignInspire，由香港貿易發展局主辦，就以「共創可持續都市」為主題，於12月5至7日期間於香港會展舉行。當中，「城創新活」主題館展出25個單位的設計作品，演示體驗式商業方案、智慧生活及STEAM教學三大範疇，勾勒未來創意藍圖；從英國遠道而來，被譽為全球最先進的娛樂機械人Titan the Robot亦同場亮相，具備高科技環境感知功能，可做出電影特技般的流暢動作。而「香港創意力量」展區就匯聚了一眾本地設計菁英及其原創產品。

Design is always multifaceted, offering a broad range of perspectives for appreciation. Themed "Perspectives of Design", the Hong Kong Design Centre (HKDC) pavilion at DesignInspire highlighted the power of design to the public through its wide spectrum of programmes. They brought together the best creative talent in Hong Kong and across Asia, including winners of the DFA Awards 2019, as well as creations by local designers from the Design Incubation Programme and the Fashion Incubation Programme.

Furthermore, as an extension of the Design Exchange Tour organised by HKDC in September 2019, the pavilion featured a "Co-creating Hong Kong: a Design+Exhibition" for 12 Hong Kong designers to share their creative inspirations after the California exchange tour.

設計從來都不是單面的，我們可以從許多不同角度觀賞設計。由香港設計中心呈獻的主題館「設計多面睇」，讓大眾從旗下多姿多彩的項目中，感受設計的力量，當中集結了香港以及亞洲的創意精華，展出包括DFA設計獎2019的得獎作品、設計及時裝創業培育計劃的本地設計師佳作等。

今年，我們更為旗下活動「DX設計交流」設立「Co-creating Hong Kong: a Design+Exhibition」特別展區，由12位於2019年9月遠赴美國加州考察交流的香港設計師，分享旅程中獲得的靈感。

GOOD DESIGN NEW AND OLD 好設計 貪新亦戀舊

Excellent designs not only address the prevailing needs of our society, but can also stand the test of time. PMQ in Central, a creative landmark that houses some of the best designers in the city, organises deTour every year to bring more creativity into our everyday lives. In 2019, under the theme "NEW OLD. OLD NEW", deTour partnered with great design minds at home and abroad to explore how the OLD can be reinterpreted in a NEW context by incorporating values relevant to design today. Through a series of installation exhibitions, workshops, talks and activities, the event encouraged constant exploration and experimentation to drive innovation and trigger original thinking.

優秀設計除了能回應時下社會需求，更能經得起時間考驗，成就不朽。位於中環的元創方，一直是匯集不少本港設計菁英的創意地標，每年更舉行deTour推動設計融入大眾日常。今年就以主題「NEW OLD. OLD NEW」，邀請海內外設計單位，深入探索「舊」概念如何結合當下社會價值，賦予「新」意義，透過一系列裝置展覽、工作坊、講座及活動等，不斷發掘與實驗，力行創新，激活原創思維。

deTour 2019 originally scheduled on 29 November to 8 December 2019 was cancelled due to prevailing circumstances in Hong Kong. 鑑於香港當時情況，主辦單位宣佈取消原定於2019年11月29日至12月8日舉行的deTour 2019。

RESPECTING ORIGINALITY AND INTELLECTUAL PROPERTY 尊重原創 守護知識產權

A robust intellectual property system is essential for the realisation of more innovative designs in Hong Kong. With a shared commitment to this core value, the HKTDC, the HKSAR Government and HKDC co-organised the 9th annual "Business of IP Asia Forum" on 5 and 6 December 2019 themed "IP: Building an Innovative and Inclusive Future for Businesses". More than 70 key global representatives of relevant organisations were invited to share the latest strategies in intellectual property rights and sustainable corporate development. Industry leaders also explored the market demand for innovative technologies at the "Global Tech Summit", while panel members of the International Exhibition of Inventions of Geneva shared their insights on the commercialisation of inventions at the "Hong Kong Invention Congress".

香港之所以能成就許多創新設計，完善的知識產權制度是不可或缺的基礎。正因重視這份核心價值，香港貿發局、香港政府與香港設計中心聯手舉辦的年度「亞洲知識產權營商論壇」，第九屆主題為「知識產權：為企業建構創新及共融的未來」，於12月5及6日邀請70位各國相關組織要員為嘉賓，分析最新知識產權及企業持續發展的策略。同場的「環球科技峰會」更有多位領袖探討創新科技行業的市場需求；「香港發明論壇」就由日內瓦國際發明展評委會成員，分享發明趨勢及發明商業化。

ENGAGING GLOBAL DESIGNERS TO ENVISION THE INDUSTRY'S FUTURE 連結世界設計人 展望行業前景

Inaugurated in 2005 by the Hong Kong Federation of Design Associations, Global Design Network (GDN) aims to promote design by building a global network of influential design organisations with Hong Kong as the hub of activity. Capitalising on the assembly of top design minds drawn to Business of Design Week each year, GDN organises a GDN Symposium concurrently with the bigger event to look into the future developments of the design industry.

國際設計聯盟 (GDN) 於2005年由香港設計總會成立，目標以香港為樞紐，集結來自全球具影響力的設計組織會員，共同推廣設計。GDN藉著每年「設計營商周」設計菁英齊聚香港的契機，舉辦「國際設計師聯席會議」，展望環球設計業界的發展前沿。

Due to Hong Kong's prevailing circumstances, the organiser announced the cancellation of the GDN Symposium originally scheduled to take place on 7 December 2019.
鑑於香港當時情況，主辦單位宣佈取消原定於2019年12月7日舉行的「國際設計師聯席會議」。

STANDING ON THE SHOULDERS OF GIANTS TO SEE FAR AND BEYOND 站上巨人肩膀 望得更遠

Museums are home to the very finest of culture and creativity. At the "M+ Matters | Keynote" held by M+, Hong Kong's new museum of visual culture, Director of Tate Maria Balshaw was invited to share her insights on the development strategy and positioning of museums in the face of the rapidly shifting global political and social landscape.

博物館可謂匯聚文化創意的終極殿堂。香港全新視覺文化博物館M+在早前舉行的「M+思考 | 焦點談」中，就邀請了泰特美術館館長Maria Balshaw女士，以其淵博學識及豐富經驗，向大家細述博物館在世界政治及社會環境急速變遷之中，整體發展的策略與定位，分享了獨到的見解。

BRINGING DESIGNERS AND BUSINESSES TOGETHER 尋找知音 連繫伯樂

Great design talents are vital to Hong Kong's thriving creative industries, but having businesses that appreciate the value of design is equally important for building a robust creative ecosystem. Aspiring to connect the two, HKDC provides a Hong Kong Design Directory on its website, a user-friendly platform which helps businesses find Hong Kong-registered design companies from different disciplines with the right portfolio for their needs.

香港的創意產業得以蓬勃發展，才華洋溢的設計人才固然不可或缺，也需要懂得欣賞及發揮設計的價值的企業及商家，形成相輔相成的創意產業生態。香港設計中心期望連繫兩者，透過「香港設計指南」這個方便的免費網上平台，讓從事各種設計專業的香港註冊公司分享履歷，商界人士以至公眾能隨時按他們的需要進行搜尋，從而締造更多商機。

HKDC Annual Report 2018-19
《香港設計中心年報 2018-19》

Entitled "Reimagine Design", the annual report's cover features a uniquely rearranged font design composed of geometric elements, prompting readers to rethink the meaning of design. The annual report illustrates to the public and partners the many design promotion initiatives and achievements of HKDC, and sets new milestones for the coming year.

以「設計再想像」為題，本年報封面特別以幾何圖案元素設計出嶄新字體，觸發讀者重新思考何謂設計。年報向公眾及合作伙伴闡示香港設計中心推廣設計和設計思維的項目成果，並展望來年目標。

Design for Asia: DFA Awards 2019
《給亞洲設計 - DFA設計獎2019》

Since 2003, the DFA Awards has been recognising outstanding designs and distinguished individuals through its five design award programmes. This book is a collection of the award-winning works from DFA Awards 2019, celebrating the new face of Asian design in technology innovation, environmental experiences, social issues and humanitarian values from an Asian perspective.

DFA設計獎自2003年起，透過五個設計獎項表揚卓越設計及傑出人物。本書輯錄2019年度的得獎作品，從亞洲觀點，以科技革新、環保體驗、社會議題和人文關懷四個面向，揭示亞洲設計的新面貌。

Placemaking: Reinventing the Past and Future of Urban Fabric
《地方營造 - 重塑社區肌理的過去與未來》

Curated by Prof. Eric Yim, Chairman of HKDC, written by veteran journalist Tinny Cheng and published by Joint Publishing, the book revisits the tales of 13 Hong Kong placemaking heroes who created 'places' from 'spaces' by applying design thinking. Their stories were first told in the "Good Life Good Design" segment in Metro Radio's "Doors to the World" programme. The book launch-cum-Wan Chai guided tour was successfully held on 9 November 2019 at JP Books Wan Chai Store.

由香港設計中心主席嚴志明教授策劃、資深傳媒工作者鄭天儀撰寫、三聯書店出版，本書把新城知訊台《世界隨意門》的「生活就是設計」環節中，13位香港地方營造幕後英雄於城市中妙用設計思維的個案轉化為文字。新書分享會暨灣仔導賞團於2019年11月9日在三聯書店·灣仔文化生活薈順利舉行。

DESIGN RE- DEFINED

As a publicly funded organisation, HKDC has continuously strengthened its corporate governance and improved its workplace culture over the years to foster accountability, cooperation and collaboration.

In addition to regular reviews of its operation, HKDC conducts regular staff training to ensure that operational procedures comply with its own corporate governance principles.

HKDC has also implemented a two-tier reporting system for managing potential conflicts of interest for its directors. Apart from self-reporting potential conflicts at board or committee meetings, directors are now also required to disclose their general interests, direct or indirect, pecuniary or otherwise, on appointment to HKDC's board. Their declarations are also available for inspection by members of the public upon request.

香港設計中心作為一間獲公帑資助的機構，多年來一直致力加強企業管治及提升職場文化，以維持高度的問責性及內部的緊密協作。

除了定期檢討日常運作，香港設計中心亦定期提供僱員培訓，確保營運程序符合其企業管治原則。

此外，香港設計中心亦實行兩層通報機制，以處理董事的潛在利益衝突。除了向董事會或委員會自行申報外，董事在獲委任加入香港設計中心董事會時，亦須披露所有直接或間接、金錢或非金錢的一般利益。如有需要，有關披露的資訊亦會公開予公眾人士查閱。

The Rise of the Creative Class
by Richard Florida

The book offers a radical interpretation of economic development in the 21st century. Creative people are not just referring to artists or designers but redefined as professionals who solve complex problems with creative thinking who are driving innovations, entrepreneurial activities and economic growth. With the global competition for these creative talents, we are seeing a stronger emphasis on the importance of the quality of place. Hong Kong not only has the right physical, social and digital infrastructure, but is inclusive enough for diversity to shine. I can see the future of Hong Kong as a place for the Creative Class.

本書大膽詮釋廿一世紀經濟發展：具創造力的人不僅指藝術家或設計師，而是重新定義為用創意解難及推動創新、商業活動及經濟增長的專業人士。各地求才若渴，地方的生活質素成為吸引創意人才的重要因素。香港不但擁有完善的物質、社會及數碼基建，更可高度包容多元文化，相信未來會成為創意階層聚居之地。

Doughnut Economics
by Kate Raworth

This work outlines how an economy can be organised to be fully sustainable. I learned about this during the early phase of COVID-19. It has inspired me to rethink and re-imagine what the world could be like if we are given the chance to build our systems with an inclusive and sustainable mindset, to address our current social and ecological challenges.

我在疫情早期接觸這本書，裡面概述了如何組織一個能達致全面可持續性的經濟模式。我不禁重新思考及想像：若我們有機會重新構建我們的社會系統，以具包容性及可持續性的思維，解決當前社會及生態層面的挑戰，世界會有何改變？

Video conferencing software 視像會議軟件

The global pandemic has changed the world entirely, including our lifestyles, with people spending less time meeting in person and more time than ever meeting virtually. These days, as the design of video conferencing software gains great headway, we can appreciate the first lesson from our design teachers, "To design is to solve problems."

全球疫情改變世界，包括我們的生活模式，人與人的親身接觸少了，大家透過螢幕對話的時間比任何時候都長。這些日子以來，視像會議軟件的设计質素不停改善和提升，真正做到每個設計老師在第一課所說的：「設計是為了解決問題」。

Chair # 670
by Charles and Ray Eames

Charles and Ray Eames were prolific designers who stated: "we don't do art – we solve problems". Their problem solving spanned a very wide spectrum, from architecture to wooden medical splints, and lots more between. They were not tempted to "specialise" in any particular typology. This Chair # 670 symbolises the extent to which they applied their problem-solving skills, regardless of what we would now think of as separate and narrowly focused design disciplines. They were driven by a desire for design to be a driver of social change. Something we all need to reinvent within ourselves 80 years after they led the way.

「我們不做藝術品，而是解決問題。」Eames夫婦設計作品無數，解決的問題範圍十分廣泛，從建築到木製醫療夾板不等，不願「精專」於特定範疇。這張椅子充分表現了其解難能力，超越了我們單獨而狹窄的設計分類和範疇。他們渴望以設計驅動社會改變，創新精神歷經80年仍值得我們學習。

"Fight the Virus" Leaflet 抗疫單張
by my daughter 妹豬

This is a small creation of my daughter, which I believe was inspired by the recent pandemic. Creativity could come from a feeling, an idea or a state of mind. Rather than putting 'design' on a pedestal, we should just go back to basics and express our thoughts on life in different ways. Maybe then we can bring forth a new understanding on life.

Nike Air Max

When I helped launch the first Nike Air Max in Hong Kong in 1989, we combined advertising conveying the Nike spirit with a clear demonstration of its visible "air" design. Conceptualised by Tinker Harfield, Air Max popularised Nike's ubiquitous Air Cushioning platform. His design is the first to offer a window to the sole, making Air technology visible, and adding style to performance and comfort. Nike Air Max truly connected sports engineering with design culture for the first time and set the stage for 30 years of reinvention and innovations in the industry.

Design Studies: Theory and Research in Graphic Design
Published by Princeton Architectural Press

The book has enlightened me on a prolonged issue of the Graphic Design (Visual Communication) discipline: representative scholars from the book state that the overemphasis on the importance of aesthetic appearance, styling and visual structure has been a long-standing issue in the graphic design discipline and education. There has been limited discourse about the reasons and functions behind the designs and what objectives they try to achieve.

本書啟發了我思考平面設計（視覺傳意）的深層問題：書中學者指出，平面設計界及教育長久以來的問題是過分強調美學外觀、風格及視覺結構，關於設計背後的原因、功能及設計師想達成的目標的討論亦不足夠。

Azzedine Alaïa

During my fashion design career in Paris and London, I was stunned by the perfection of the sculptural couture craftsmanship of legendary Parisian Couturier Azzedine Alaïa (1935 -2017). Once dubbed "the King of Cling", Alaïa was highly revered for his garments that moulded the body into extraordinary proportions. In finding his work as my "kindred spirit", I have persisted in advocating a refined aesthetic sense combined with much emphasis placed on the finesse of cut and proportion, together with attention to details... throughout my design career.

Sagrada Familia 聖家堂
by Antoni Gaudi

"Having a special ability to synthesise tradition and the courage to try new technical solutions, Antoni Gaudi created some of the most imaginative architectural forms in history. The architect sees things clearly as a whole before they are done, and situates and connects the elements in their plastic relationship and at the right distance."* I believe that great architects and movements come from that change and from their belief in the change needed.

Gaudi結合傳統及對新技術的追求，創造出不少史上最富創意的建築物，他做事有全盤計劃，把各種元素以適當距離放置，並以塑性關係連結。我相信偉大的建築師及建築運動均來自於這種改變，以及時刻求變的信念。

Royal College of Art 英國皇家藝術學院

Visiting the Royal College of Art in the early years gave me a deeper understanding of design. Real design is not just about appearance, but should have the ability to solve problems, change the ecosystem and influence the world! In recent years, we have seen the uprise of innovative enterprises that make use of technology, design and the 'sharing economy' concept disrupt our long-established, traditional methodologies. Their success is a testament that functional innovations, with help of digitalisation, can create new value and open new markets.

Those books changed my existing points of view on design and eventually led to new milestones in my academic career: from conventional design to design methodology, user-centred design, and cultural design.

這些書的研究範圍甚廣，不論從傳統設計到設計方法論、從居家為本設計到文化設計，都改變了我原本對設計的觀點，並引領我的學術生涯，樹下一個個里程碑。

Villa Savoye
by Le Corbusier

I was greatly inspired by Le Corbusier's use of space and proportion. His 1920 Villa Savoye is forward-looking in its design and efficient in its spatial planning. The design blends architecture with nature, highlighting the beauty of simplicity, purity and tranquillity. It is an icon of modernism that will live on for generations to come.

Le Corbusier在空間及比例上的運用給我極大啟發。他1920年的Villa Savoye內外貫通的設計甚具前瞻性，空間規劃極具效率。設計將大自然與建築相融，呈現簡約、純粹、寧靜之美，是歷久彌新的現代主義建築指標。

Foucault's Pendulum 《傅科擺》
by Alberto Echo 安伯托·艾可

The novel follows the three protagonists in their quest for the medieval Christian "Templar Conspiracy Theory", linking together a series of historical events as they try to solve the mystery. The writer is a true master of blurring reality with fiction, who constructs a fictitious world based on facts and knowledge that deeply fascinates the reader. It is an extraordinary feast for the imagination.

小說以三位主人翁追尋中世紀基督教的「聖殿騎士陰謀論」為主線，串連歷史大事，並試圖解開謎團。作者擅長遊走於真實與虛構之間的把戲，更以真實知識構建了一個系統，讓虛構得以成為真實，讓讀者就如置身其中，深深著迷，可謂「宇宙級的滿漢全席」。

Orange and Yellow 1956
by Mark Rothko

I find Mark Rothko's Orange and Yellow 1956 magical. On the one hand, the artist guides the viewer on how to admire it. On the other hand, by creating a seemingly minimalist approach, he allows the viewer to freely interpret the work both on an emotional and abstract level. Emotionally, the vibrant colours instantly evoke feelings of ecstasy, passion and tragedy. On an abstract level, different colours and images seem to emerge, and personal mental connotations occur to the viewer. Inspiration is when this kind of magic happens.

作品十分神奇，藝術家一方面引導觀眾如何欣賞，另一方面以看似極簡主義的手法，容許觀者從情感及抽象層面自由解讀：從情感出發，鮮豔的橙色、黃色喚起狂喜、激情和悲劇感。從抽象角度而言，不同顏色及畫面彷彿浮現眼前，靈感就在這奇妙的瞬間迸發。

The Quadracci Pavilion 密爾沃基藝術博物館
by Santiago Calatrava

The Quadracci Pavilion is the bird-like structure extending out of the Milwaukee Art Museum, designed by Spanish architect Santiago Calatrava. This iconic structure is a prime example of biomimicry in architecture. Calatrava loves to use curving concrete columns that come together to create the resemblance of a ribcage of animals. He excels in creating sculptural architecture that seems to defy the laws of physics and infuses a sense of motion into still objects.

誇德拉奇館由西班牙建築師Santiago Calatrava設計，是密爾沃基藝術博物館的鳥形延伸建築結構，為仿生學建築的典範：其彎曲的混凝土柱，組成如胸腔般的結構，讓人聯想到動物的形態。這位建築師的創作無視物理定律，把動感注入靜態物件。

Design has been written into PMQ's architecture, business plan and operation from the very beginning. Today, it stands proud as a creative landmark and an integral part of the city's creative ecologies with refreshed narratives, display of designers' creative works and a rich mix of exhibitions and creative programmes for all ages. PMQ well demonstrates that design is not just about the creative concept. It also requires creative vision, business acumen, design and cultural leadership, and both individual and group creativity underpinned by forward-thinking governance. PMQ is also a good case demonstrating public-private partnership.

Creative Confidence Unleashing the Creative Potential within Us All by David M. Kelley and Tom Kelley

The book advocates almost religiously that creativity is in everyone of us. It demystifies creativity by explaining the core meaning of creativity, creative practices and practical tips and tools that when added together, shape the creative process. It breaks the misconception that creativity is reserved for professional designers and artists, and leads the readers to unleash their own creative potentials. With the accumulation of creative confidence, we will be able to relate the contagious mindset to problems in our life or career.

The Wayang Kulit Shadow Theatre 哇揚皮影戲劇場

Since my earliest travels to Java I have been captivated by the Wayang Kulit shadow theatre, the ancient art of storytelling accompanied by the musicality of the gamelan orchestra. From one side of the screen you have a visual feast of musicians in batik and brocade textiles, gleaming percussion instruments and a cast of colourful puppets. From the other side, one is transported to the flickering shadows of puppets in ever-changing landscapes of mountains and palaces-creating atmospheric 2D and 3D performances that are philosophical and entertaining.

自從我第一次到爪哇旅遊後，就被「哇揚皮影戲」這種古老的說故事藝術深深吸引。表演伴隨甘美蘭樂隊的獨特音樂，屏幕一邊是身穿蠟染和錦緞紡織品的音樂家、閃閃發光的敲擊樂器和色彩繽紛的木偶，另一邊可看到木偶的身影於不斷變化的山林與宮殿間搖曳，以平面及立體呈現撼動人心的演出。

The Poetics of Space
by Gaston Bachelard

I am intrigued by Bachelard's view that there is a dynamic interplay between an active mind and its surroundings. Space is the abode of human consciousness and architects should base their work on the experiences it will engender, rather than on abstract rationales that may or may not affect viewers and users of architecture. *The Poetics of Space* has a deep influence on my design thinking, exploring the more intimate relationship between humans and spaces.

作者認為活躍的思想與其周圍的環境有著動態的關聯關係，這一觀點讓我深感好奇，並開始研讀這本書。作者指出，空間是人類意識的居所，建築師應把創作的重心放在創造體驗，而非那些可能會亦或可能不會對觀者或者使用者產生任何影響的抽象理論。這本書對於我的設計思維有很深遠的影響，讓我更專注於探索人與空間的親密關係。
