### Newly established Design and Fashion Base amplifies Shum Shui Po's textile legacy

BODW City Programme is the 'beyond the main stage' Hong Kong design festival of Business of Design Week (BODW) Summit organised by HKDC with CreateHK as the Lead Sponsor. In collaboration with 'One Bite Design Studio', the 'Sham Shui Po Treasures and Craftsmanship' project is launched from November 25 to December 3 which explores the potential of redesigning unused public spaces. This includes the installation of colourful inflatable structures under the Tung Chau Street Flyover (opposite HKDC Design & Fashion Base), symbolising Sham Shui Po's vibrant cultural diversity and creative ecosystem. Visitors to the 'GBA Creative Night' can also explore these installations and discover Sham Shui Po's design treasures.

Sham Shui Po is traditionally known as a hub for retail and wholesale of fabric and fashion, combining creativity, craftsmanship, and grassroots wisdom. The HKSAR Government announced the implementation of the Sham Shui Po Design and Fashion Base Project in early 2018, reserving a five-story commercial section with an area of 3,600 square meters for redevelopment by the Urban Renewal Authority (URA). HKDC is responsible for operations, while CreateHK plays the role of strategy formulation, co-ordination and supervision. HKDC's new location in Sham Shui Po will leverage the district's unique characteristics, integrating design, fashion, garment manufacturing, and retail to create new synergies. It is poised to become a focal point for design and fashion in Hong Kong, a gathering place for the industry. Together with the city's first design museum, it aims to become a tourist attraction that will stimulate tourism in the district.

### Design and Fashion Base as Hong Kong's creative nexus and industry connection platform

As the Hong Kong SAR Government's strategic partner, HKDC strives to harness Hong Kong's unique blend of

Eastern and Western cultures to promote local design to both the domestic and global markets to create value for industry, and continuously transform Hong Kong into a cultural centre for artistic exchange between the East and West. Through various flagship events and projects, HKDC aims to strengthen connections between local businesses and the design industry and leverage the power of design to strengthen business competitiveness. With the relocation to Sham Shui Po in 2024, HKDC will become a hub for creative exchange with an aim to foster the development of Hong Kong's cultural exchange and creative industries, nurture emerging designers, fashion designers, and startups, and drive regional economic growth and tourism development. The 'GBA Creative Night' marks a new beginning for mutual exchange and connection among various design industries, creativity, and commerce in the Greater Bay Area.
